and after detailed deliberation the Authority decided "The Authority agreed with the recommendation of SEAC and decided to reject the amendment of EC proposal as replenishment study report submitted by the PP is not accepted by SEAC due to the following reasons:

Replenishment Study is defective as mentioned below -

- i) It is observed from KML file that only 10% of the lease area is having sand. Most of the area is on the embankment & away from the water flow area of river.
- ii) There are deep excavations beyond the lease area.
- iii) The study report is prepared by RQP Manas Ranjan Mohanta based on the drone study made by ZeoTEK. which is not approved by ORSAC".
- iv) Total lease area is 30,000 Sq meter, but sand bed area as mentioned in Mining Plan and Replenishment study is 37479 sq meter which is erroneous and false.

Therefore, the proposal for Amendment in EC is Rejected as per provision of EIA Notification, 2006 and as amended thereof.
