Dated 21/11/2025

To,

Mr. Dineshwar Chandrakar  
M/s Ghodhari Farshi Pathar Quarry  
Village - Ghodari, Tehsil & District – Mahasamund, Chhattisgarh  
ec.dineshwar22@gmail.com

**Subject:** Grant of prior Environmental Clearance (EC) for mining of Flagstone (Minor Minerals) capacity- 2,275 TPA (910 Cum/year) in khasra no. 108 (part), Area - 0.29 Hectare at Village - Ghodari, Tehsil - Mahasamund, District – Mahasamund, Chhattisgarh under the provision of the EIA Notification 2006-regarding

**Sir/Madam,**

This is in reference to your application submitted to SEIAA vide proposal number SIA/CG/MIN/475190/2024 dated 06/08/2024 for grant of prior Environmental Clearance (EC) to the project under the provision of the EIA Notification 2006-and as amended thereof.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC24B0108CG5996074N
(ii) File No.	OL/REAPP_EC/MIN/MAHASAMUND/2204
(iii) Clearance Type	Fresh EC
(iv) Category	B1
(v) Project/Activity Included Schedule No.	1(a) Mining of minerals
(vii) Name of Project	M/s. Ghodhari Farshi Pathar Quarry, Proprietor – Mr. Dineshwar Chandrakar
(viii) Location of Project (District, State)	MAHASAMUND, CHHATTISGARH
(ix) Issuing Authority	SEIAA
(x) Applicability of General Conditions	No

SEIAA in its 202nd Meeting held on 10/09/2025 perused the case and minutes of the 619th Meeting of SEAC-2, Dated 24/04/2025

Project proponent submitted the required documents for the following matters vide their letter dated 10/09/2025.

- Project proponent has submitted the notarized affidavits.

It is noted that original application is for mining of Flagstone (Minor Minerals) capacity- 2,275 TPA (910 Cum/year). After deliberation, SEIAA unanimously accepted the recommendation of SEAC-2 and decided to grant environmental clearance for Flagstone (Minor Minerals) capacity- 2,275 TPA (910 Cum/year) in khasra no. 108 (part), Area - 0.29 Hectare at Village - Ghodari, Tehsil - Mahasamund, District – Mahasamund under the EIA Notification, 2006 (as amended) listed in Schedule 1(a) Mining of minerals under Category “B1” subject to the fulfillment of conditions:-

- **The PP shall complete the restoration of the excavated 7.5 meter wide safety area of the mine as per the revised mining plan.**
- **Project Proponent shall plant the samplings in the restored area as per the condition of the previous EC.**
- **Compliance of the completion of the above conditions is mandatory. If these conditions are not complied within 3 months, the concerned RO, CECB shall take necessary steps to stop the mining operations and resumption of the mining operations will be subject to the fulfilling of above conditions.**

3. This Environment Clearance is for mining of Flagstone (Minor Minerals) capacity- 2,275 TPA (910 Cum/year) in khasra no. 108 (part), Area - 0.29 Hectare at Village - Ghodari, Tehsil - Mahasamund, District – Mahasamund, Chhattisgarh.
4. In view of the particulars given in the Para 1 above, the project proposal interalia including Form-1 (Part A, B and C)/ EIA & EMP Reports were submitted to the SEIAA under the provision of EIA notification 2006 and its subsequent amendments.
5. The above-mentioned proposal has been considered by State Environment Impact Assessment Authority (SEIAA) in the meeting held on 10/09/2025. The minutes of the meeting and all the Application and documents submitted are available on PARIVESH portal which can be accessed by scanning the QR Code above.
6. Details of the minerals to be mined along with production capacity and the brief on the salient features of the project as submitted by the project proponent in Form 1 (Part A, B and C) presented are annexed to this EC as Annexure (1).
7. The SEAC, in its meeting held on 24/04/2025, based on information & clarifications provided by the project proponent and after detailed deliberations on all technical aspects and public hearing issues and compliance thereto furnished by the Project Proponent, recommended the proposal for grant of Environment Clearance under the provision of EIA Notification, 2006 and as amended thereof subject to stipulation of Specific and Standard EC conditions as detailed in the point below.
8. The SEIAA has examined the proposal in accordance with the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and after accepting the recommendations of the SEAC and hereby decided to grant Environment Clearance for the instant proposal under the provisions of EIA Notification, 2006 and as amended thereof subject to compliance of the Specific and Standard EC conditions as given in Annexure (2).
9. The Ministry reserves the right to stipulate additional conditions, if found necessary.
10. The Environmental Clearance to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.
11. The PP is under obligation to implement commitments made in the Environment Management Plan, which forms part of this EC.
12. General Instructions:
  1. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of SEIAA website where it is displayed.

2. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn must display the same for 30 days from the date of receipt.
  3. The project proponent shall have a well laid down environmental policy duly approved by the Board of Directors (in case of Company) or competent authority, duly prescribing standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions.
  4. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the project proponent (during construction phase) and authorized entity mandated with compliance of conditions (during operational phase) shall be prepared. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Six monthly progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report.
  5. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
  6. The Regional Office of this SEIAA shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
  7. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
13. This issue with an approval of the Competent Authority.

**Annexure 1**

**Specific EC Conditions for (Mining Of Minerals)**

**1. Special Conditions**

S. No	EC Conditions
1.1	<ol style="list-style-type: none"> <li>1. The PP shall complete the restoration of the excavated 7.5 meter wide safety area of the mine as per the revised mining plan.</li> <li>2. Project Proponent shall plant the samplings in the restored area as per the condition of the previous EC.</li> <li>3. Compliance of the completion of the above conditions is mandatory. If these conditions are not complied within 3 months, the concerned RO, CECB shall take necessary steps to stop the mining operations and resumption of the mining operations will be subject to the fulfilling of above conditions.</li> <li>4. Project Proponent shall follow the SOP issued by CECB for transportation.</li> <li>5. Garland drain should be properly constructed so that mine water will not be discharge outside the premises under any circumstances. Mine water will be provided to the local villagers for agriculture purpose after proper treatment mine water.</li> </ol>

**Standard EC Conditions for (Mining of minerals)**

1.

S. No	EC Conditions
1.1	<p><b>Additional EC Conditions</b></p> <ol style="list-style-type: none"> <li>1. No excavation work will be done in the future around the mine area (area restricted for excavation).</li> <li>2. Top soil will be kept in the restricted area for excavation of the lease area and PP shall ensure to conserve the top soil for reclamation of mine and for plantation.</li> <li>3. Dense proposed plantation of trees (273 nos) on the 7.5 meter wide safety zone around mine lease area (area restricted for excavation) and ensuring a 90 percent survival rate of the planted plants.</li> <li>4. The project proponent shall complete proposed plantation in 7.5 meter wide safety zone in the first monsoon season from issue date of environment clearance.</li> <li>5. Regular water sprinkling arrangements in the mine lease area and also in haul road to control the fugitive dust emissions.</li> <li>6. Employment provided to the local people under the Chhattisgarh Model Rehabilitation Policy.</li> <li>7. Project proponent shall ensure that any kind of contaminated water (if generated) shall not flow into the natural water source, pond, river, drain under any circumstances.</li> <li>8. There should be regular monitoring of the mining activities in the State to ensure effective compliance of stipulated EC conditions and of the provisions under the Minor Mineral Concessions Rules framed by the State Government.</li> <li>9. Project proponent shall ensure that mining operation shall be carried out after sunrise and before sunset.</li> </ol>

S. No	EC Conditions
	<p>10. The pollution load due to transportation on the environment shall be effectively controlled and water sprinkling shall also be done regularly.</p> <p>11. Project proponent shall ensure that the construction of boundary pillars as per Mineral Concession Rules, 1960 (as amended).</p> <p>12. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded.</p> <p>13. Project proponent shall ensure at the time of closure of mine the whole pit will be reclaimed by overburden/ topsoil etc. and do native tree species plantation.</p> <p>14. Project proponent shall submit Completion certificate of proposed plantation under CER activities, CEMP, 7.5 meter wide safety barrier plantation along with Geotag photographs in six monthly compliance report.</p> <p>15. Project proponent shall ensure that fulfillment of the assurance given to the local villagers regarding resolution of various issues raised during public hearing.</p> <p>16. Project proponent shall ensure to appoint one environment expert to ensure the compliance of EC conditions and mining plan.</p> <p><b>Standard EC conditions -</b></p> <p>Statutory compliance:</p> <ol style="list-style-type: none"> <li>1. The Environmental clearance shall be subject to orders issued by the Hon'ble Supreme Court of India, Hon'ble High Courts, NGT and any other Court of Law, from time to time, and as applicable to the project.</li> <li>2. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.</li> <li>3. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.</li> <li>4. The project proponent shall prepare a Site-Specific Conservation Plan &amp; Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of schedule-I species in the study area).</li> <li>5. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention &amp; Control of Pollution) Act, 1981 and the Water (Prevention &amp; Control of Pollution) Act, 1974 from the concerned State pollution Control Board/ Committee.</li> <li>6. The project proponent shall obtain the necessary permission from the Central Ground Water Authority or competent authority for usage of water.</li> <li>7. Solid/hazardous waste generated in the mines needs to addressed in accordance to the Solid Waste Management Rules, 2016/Hazardous &amp; Other Waste Management Rules,</li> </ol>

S. No	EC Conditions
	<p>2016.</p> <ol style="list-style-type: none"> <li>8. Permission of power supply to be taken from the concerned authority for meeting power demand of the project site.</li> <li>9. The maximum production or peak production at any given time shall not exceed the limit as prescribed in the EC.</li> <li>10. The Project Proponent shall inform the MoEF&amp;CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.</li> <li>11. Validity of EC is as per life of the mine mentioned in EC letter or 30 years from lease execution date (i.e. 18/05/2039) as per EIA Notification, 2006 and its amendments therein.</li> </ol> <p>Air quality monitoring and mitigation measure:</p> <ol style="list-style-type: none"> <li>1. Ambient air quality monitoring shall be conducted once in a year in the core zone as well as in the buffer zone for monitoring of pollutants, namely particulates, SO<sub>2</sub> and NO<sub>x</sub>. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive receptors. The report shall be submitted to the SEIAA, C.G./ SEAC, C.G.</li> <li>2. The Ambient Air Quality monitoring in the core zone shall be carried out. Data on ambient air quality and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly reported to the Ministry/Regional Office and to the CPCB/SPCB.</li> <li>3. Transportation of minerals, to the extent if permitted by road, shall be carried out by covered trucks. Effective control measures such as regular water sprinkling etc., shall be carried out in critical areas prone to air pollution with higher level of particulate matter all through the transport roads, loading/unloading and transfer points. Fugitive dust emissions from all sources shall be controlled regularly. It shall be ensured that the ambient air quality parameters conform to the norms prescribed by the Central/State Pollution Control Board.</li> <li>4. Major approach roads shall be properly maintained.</li> <li>5. PP to install solar lights along the road used for transportation to avoid the accidents at night and also seek its maintenance.</li> <li>6. The transportation of mineral shall be carried out as per the provisions and route proposed in the approved mining plan. Road passing through any village shall be avoided. In case, it is proposed to construct a 'bypass' road, it should be so constructed that the impact of sound, dust and accidents could be appropriately mitigated.</li> <li>7. Vehicular emissions shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied activities shall operate only after obtaining 'PUC' certificate from the authorized pollution testing centers.</li> <li>8. Water sprinkling arrangement shall be provided to reduce the impact of air pollution.</li> <li>9. Post environmental closure third party monitoring by reputed instituted in air quality, water, land &amp; soil etc shall be carried out and analyses with EMP measures at regular</li> </ol>

S. No	EC Conditions
	<p data-bbox="496 232 1469 300">interval. A suitable recommendation in this regard, shall be furnished to IRO, MoEF&amp;CC for compliance.</p> <p data-bbox="416 360 991 389">Water quality monitoring and mitigation measures:</p> <ol data-bbox="469 398 1469 2047" style="list-style-type: none"> <li data-bbox="469 398 1469 607">1. Regular monitoring of ground water level and quality shall be carried out in and around the mine lease area by establishing a network of existing wells and constructing new piezometers during the mining operations. The monitoring of ground water levels shall be carried out four times a year i.e. pre-monsoon, monsoon, post-monsoon and winter. The ground water quality shall be monitored once a year, and the data thus collected shall be sent regularly to MOEFCC/RO.</li> <li data-bbox="469 636 1469 770">2. If any river, ponds and lakes close to the mine lease area, monitoring of water quality upstream and downstream of river including ponds, lakes shall be carried out once in six months and record of monitoring data shall be maintained and submitted to the Ministry of Environment, Forest and Climate Change/Regional Office.</li> <li data-bbox="469 799 1469 898">3. Ground water, excluding mine water, shall not be used for mining operations. Rainwater harvesting shall be implemented for conservation and augmentation of ground water resources.</li> <li data-bbox="469 927 1469 1135">4. The project proponent shall not alter major water channels around the site. Appropriate embankment shall be provided along the side of the river/nallah flowing near or adjacent to the mine. The embankment constructed along the river/nallah boundary shall be of suitable dimensions and critical patches shall be strengthened by stone pitching on the river front side, stabilized with plantation so as to withstand the peak water pressure preventing any chance of mine inundation.</li> <li data-bbox="469 1164 1469 1449">5. Garland drains (of suitable size, gradient and length) around the critical areas i.e. mine shaft and low lying areas, shall be designed keeping at least 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine sites. The sump capacity shall also provide adequate retention period to allow proper settling of silt material of the surface runoff The water pumped out from the mine, after siltation, shall be utilized for watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</li> <li data-bbox="469 1478 1469 1576">6. The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz. watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</li> <li data-bbox="469 1606 1469 1704">7. Adequate groundwater recharge measures shall be taken up for augmentation of ground water. The project authorities shall meet water requirement of nearby village(s) in case the village wells go dry due to dewatering of mine.</li> <li data-bbox="469 1733 1469 2047">8. The surface drainage plan including surface water conservation plan for the area of influence affected by the said mining operations shall be prepared, considering the presence of any river/rivulet/pond/lake etc., with impact of mining activities on it, and implemented by the project proponent. The surface drainage plan and/or any diversion of natural water courses shall be as per the provisions of the approved Mining Plan/ EIA-EMP submitted to this Ministry and the same should be done with due approval of the concerned State/GoI Authority. The construction of embankment to prevent any danger against inrush of surface water into the mine should be as per the approved mining plan and as per the permission of DGMS.</li> </ol>

S. No	EC Conditions
	<p data-bbox="469 232 1473 338">9. Domestic water shall be providing to the residents/villages which are coming under the zone of influence of the project due to ground water extraction by installing a RO plant.</p> <p data-bbox="416 398 960 427">Noise and Vibration monitoring and prevention:</p> <ol data-bbox="469 434 1473 775" style="list-style-type: none"> <li data-bbox="469 434 1473 645">1. Adequate measures shall be taken for control of noise levels as per Noise Pollution Rules, 2016 in the work environment. Workers engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with personal protective equipments (PPE) like ear plugs/muffs in conformity with the prescribed norms and guidelines in this regard. Adequate awareness programme for users to be conducted. Progress in usage of such accessories to be monitored.</li> <li data-bbox="469 674 1473 775">2. The noise level survey shall be carried out as per the prescribed guidelines to assess noise exposure of the workmen at vulnerable points in the mine premises, and report in this regard shall be submitted to the Ministry/RO on six-monthly basis.</li> </ol> <p data-bbox="416 835 564 864">Mining Plan:</p> <ol data-bbox="469 871 1473 1290" style="list-style-type: none"> <li data-bbox="469 871 1473 943">1. Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate legislations made there-under as applicable.</li> <li data-bbox="469 965 1473 1037">2. Mining shall be carried out as per the approved mining plan (including Mine Closure Plan) and the relevant circulars issued by Directorate General Mines Safety (DGMS).</li> <li data-bbox="469 1059 1473 1196">3. No mining shall be carried out in forest land without obtaining Forestry Clearance as per Forest (Conservation) Act, 1980 and also adhering to The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 read with provisions of Indian Forest Act, 1927.</li> <li data-bbox="469 1218 1473 1290">4. Efforts should be made to reduce energy and fuel consumption by conservation, efficiency improvements and use of renewable energy.</li> </ol> <p data-bbox="416 1350 632 1379">Land Reclamation:</p> <ol data-bbox="469 1386 1473 2018" style="list-style-type: none"> <li data-bbox="469 1386 1473 1491">1. Post-mining land be rendered usable for agricultural/forestry purposes and shall be handed over to the respective State Government, as specified in the Guidelines for Preparation of Mine Closure Plan.</li> <li data-bbox="469 1514 1473 1760">2. Regular monitoring of subsidence movement on the surface over and around the working areas and its impact on natural drainage pattern, water bodies, vegetation, structure, roads and surroundings shall be continued till movement ceases completely. In case of observation of any high rate of subsidence beyond the limit prescribed, appropriate effective mitigation measures shall be taken to avoid loss of life and materials. Cracks should be effectively plugged in with ballast and clay soil/suitable material.</li> <li data-bbox="469 1783 1473 1888">3. A separate team for subsidence monitoring and surface mitigation measures shall be constituted and continuous monitoring &amp; implementation of mitigation measures be carried out.</li> <li data-bbox="469 1910 1473 2018">4. Thorough inspection of the mine lease area for any cracks developed at the surface due to mining activities below ground shall be carried out to prevent inrush of water in the mine.</li> </ol>

S. No	EC Conditions
	<p>5. Native tree species shall be selected and planted over areas affected by subsidence.</p> <p>6. The project proponent shall make necessary alternative arrangements, if grazing land is involved in core zone, in consultation with the State government to provide alternate areas for livestock grazing, if any. In this context, the project proponent shall implement the directions of Hon'ble Supreme Court with regard to acquiring grazing land.</p> <p>Public hearing and Human health issues</p> <ol style="list-style-type: none"> <li>1. Adequate illumination shall be ensured in all mine locations (as per DGMS standards) and monitored.</li> <li>2. The project proponent shall undertake occupational health survey for initial and periodical medical examination of the personnel engaged in the project and maintain records accordingly as per the provisions of the Mines Rules, 1955 and DGMS circulars. Besides regular periodic health check-up, 20% of the personnel identified from workforce engaged in active mining operations shall be subjected to health check-up for occupational diseases and hearing impairment, if any, as amended time to time.</li> <li>3. Personnel (including outsourced employees) working in core zone shall wear protective respiratory devices and shall also be provided with adequate training and information on safety and health aspects.</li> <li>4. Skill training as per safety norms specified by DGMS shall be provided to all workmen including the outsourcing employees to ensure high safety standards in mines.</li> <li>5. Effective arrangement shall be made to provide and maintain at suitable points conveniently situated, a sufficient supply of drinking water for all the persons employed.</li> <li>6. PP to conduct need based assessment survey of the area in order to decide the activities to be carried under the CSR and to provide detail of the activity carried out with adequate budgetary provision and time bound action plan.</li> <li>7. Project proponent shall conduct health checkup facilities twice in a year for the villagers.</li> <li>8. PP must ensure an emergency action plan during pandemic in order to provide assistance to the nearby villages.</li> <li>9. PP to take measure for installation of Renewable Energy sources in nearby area falling within 10 km radius</li> </ol> <p>Corporate Environment Responsibility:</p> <ol style="list-style-type: none"> <li>1. S. No	EC Conditions
	<ol style="list-style-type: none"> <li>2. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.</li> <li>3. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.</li> <li>4. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.</li> <li>5. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Act, 1986.</li> <li>6. The project authorities shall inform to the Regional Office of the MOEFCC regarding commencement of mining operations.</li> <li>7. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.</li> <li>8. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&amp;CC).</li> <li>9. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.</li> <li>10. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.</li> <li>11. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.</li> <li>12. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/ monitoring reports.</li> <li>13. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention &amp; Control of Pollution) Act, 1974, the Air (Prevention &amp; Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.</li> <li>14. The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day light/night hours.</li> </ol>

**Details of the Project**

S. No.	Particulars	Details	
a.	Details of the Project	M/s. Ghodhari Farshi Pathar Quarry, Proprietor – Mr. Dineshwar Chandrakar	
b.	Latitude and Longitude of the project site	21.15571782360646,82.01686133012824 21.15628692592957,82.0174791316364	
c.	Land Requirement (in Ha) of the project or activity	Nature of Land involved	Area in Ha
		Non-Forest Land (A)	0.29
		Forest Land (B)	0
		Total Land (A+B)	0.29
d.	Date of Public Consultation	Public consultation for the project was held on 2024-02-02	
e.	Rehabilitation and Resettlement (R&R) involvement	NO	
f.	Project Cost (in lacs)	6.35	
g.	EMP Cost (in lacs)	10.089	
h.	Employment Details		

**Details of Minerals Products & By-products**

Name of the Mineral to be mined	Classification of mineral [Major/Minor]	Production capacity in MTPA	Remarks
Farshi Pathar	Minor	2275.0	Above production capacity is given in tonn per year. 2275 TPY is equal to 910 cubic meter per year. Please consider TPY and Cubic meter per year both unit capacity for issuing EC so that controversy of royalty calculation can be avoided in future

Subject	Details related to the applied case
Online Application	ToR Proposal No. – 405488 Applied Date – 22/11/2022 EC Proposal no. - 475190 Applied Date – 06/08/2024

Nature of Project	Existing (Re-appraisal)
Type Of Mine	Flagstone (Minor Minerals)
Applied Area & Capacity	0.29 Ha & 2,275 TPA (910 Cum/year)
Khasra no.	108 (part)
Land	Private
Land Owner's Name (If Private) & Consent	The land is in the name of Applicant.
Details of Meeting	Intimation Email for Presentation Date : 11/04/2025 619th Meeting of SEAC-2, Dated 24/04/2025
Representatives present for presentation	Mr. Dumesh Chandrakar Authorized Representatives Consent of Authorized Representatives- Yes EIA Coordinator – Mr. Deo Narayan (Ultra-Tech Environment consultancy and Laboratory, Thane, Maharashtra)
Details of Old EC	Type of Mine – Flagstone (Minor Minerals) Khasra number – 108 Area – 0.29 hectares Capacity – 1,698.5 cum/year Date – 19/01/2018 Validity period – 18/01/2023 (issued by DEIAA) District – Mahasamund Extended Validity period – 18/01/2024 “9A. Notwithstanding anything contained in this Notification, the period from the 1st April, 2020 to the 31st March, 2021 shall not be considered for the purpose of calculation of the period of validity of Prior Environmental Clearances granted under the provisions of this Notification in view of outbreak of Corona Virus(COVID-19) and subsequent lockdowns (total or partial) declared for its control, however, all activities undertaken during this period in respect of the Environmental Clearance granted shall be treated as valid.”
Compliance Report of Old EC	Submitted - YES
Past Production certified by the Mining Department (Year wise)	Date : 23/12/2022 2017 - Nil 2018 - 182 cum 2019 - 153 cum 2020 - 48 cum 01/01/2021 to 30/09/2021 - 82 cum 01/10/2021 to 31/03/2022 - Nil Date : 05/02/2025 01/04/2022 to 30/09/2022 - 54 Cum 01/10/2022 to 31/03/2023 - 375 Cum 01/04/2023 to 30/09/2023 - Nil 01/10/2023 to 31/03/2024 - Nil 01/04/2024 to 30/09/2024 - 400 Cum

Gram Panchayat NOC	Village - Ghodari Date : 21/10/2024
Approved Mining Plan	Date : 26/09/2022
500 m	Date : 11/02/2022 No. of other mines - 24, Area – 17.54 Ha. Total no. of mines in cluster – 25, Area – 17.83 Ha.
200 m	Date : 28/08/2021 Restricted Area – No
Lease Deed	Name of Leasee holder - Mr. Dineshwar Chandrakar Date - 19/05/2009 to 18/05/2039 Validity Period - 30 Years
Forest Department NOC	Date : 13/04/2021 Issued by Divisional Forest Officer, General Forest Division, Mahasamund (C.G.) Distance from Nearest Forest – 16 km
Nearest Habitation/Structure	Village - Mudhena 640 Meter School - Mudhena 950 Meter Hospital - Mahasamund 7.1 km National Highway - 650 Meter State Highway - 13.55 km River - Mahanadi 310 Meter Pond - 890 Meter Canal - 830 Meter Nalla - 3.10 km Reservoir - 17.6 km
Ecology/Biodiversity Area	No Inter-state border, national park, sanctuary, critically polluted area declared by the Central Pollution Control Board, ecologically sensitive area or declared biodiversity area located within its 5 km perimeter.
Mining Details	Mining Method - Opencast Manual Drilling and Blasting – No According to mining Plan Reserves Geological Reserves – 35,625 Tonne Minable Reserves – 12,530 Tonne Proposed Depth - 8 meter Bench Height – 3 meter Bench width – 3 meter Life of Mine – 06 Years Year Wise Proposed Production Detail 1st Year – 2,250 Tonne 2nd Year – 2,225 Tonne 3rd Year – 2,239 Tonne 4th Year – 2,265 Tonne 5th Year – 2,275 Tonne
Restricted Area for Mine (Mine Safety Area)	Area for 7.5 m wide safety zone - 1,411 Sqm Excavated – Yes Mentioned in Mining Plan – Yes
SI/CG/MIN/475190/2024 Restoration Plan for excavated sa	As per the approved mining plan, the total area of 7.5 meter mine boundar

<p>fety zone</p>	<p>y of the applied mine is 1,411 sq.m. whose average length is 188.13 m and width is 7.5 m.  Pit-1 area of the safety boundary is 315 sq.m., 0.5 m deep dug out, whose length is 8 m and width is 7.5 m.  1.2 Pit-1 area of the excavated safety boundary will be backfilled with approximately 315 cubic meter of murrum, overburden and bad stone, forming a 45 degree slope. Along with this, 0.50 m thick pitching will be done in the boundary slope by using 21 cubic meter of stone to strengthen the slope of the boundary.  3. Pit-2 area of the safety boundary is 110 sqm, 8 m deep dug out, 14 m long and 7.5 m wide.  4. The excavated Pit-2 area of the safety boundary will be backfilled with approximately 1,760 m<sup>3</sup> of gravel, overburden and bad stone to form a 45 degree slope. Along with this, 0.50 m thick pitching will be done in the boundary slope using 112 m<sup>3</sup> of stone to strengthen the boundary slope.</p>
<p>Non mining zone</p>	<p>No</p>
<p>Top Soil / Over Burden Management Plan</p>	<p>Depth - 0.5 meter  Quantity - 88 Cum  Management detail – All top soil will be stacked along with 188 meter long 4.5 meter mine boundary area with maximum 1 meter height and 28 degree of slope and plantation will be done.  Preserved top soil will be shifted for spraying over unused or reclaimed land within lease area.</p>
<p>Water Requirement</p>	<p>Quantity - 3.5 KLD  Source - Bore well, Accumulate water in mine pit &amp; tanker  NOC from the concerned Department / Branch – CGWA NOC Submitted</p>
<p>Plantation Work</p>	<p>Plantation of trees around 7.5 meters of lease area –  Total plantation - 273 Saplings  Current Plantation – 60 Saplings  Proposed Plantation – 213 Saplings  Amount for 5 years for the proposed plantation work - Rs. 9,25,000/-</p>
<p>TOR issued</p>	<p>Serial no.- 34 ,Date - 03/04/2023  Standard ToR of 1(A) with public hearing</p>
<p>Analysis of EIA report</p>	<p>Monitoring Period - October 2021 to December 2021  Quality measurement site:  Ambient Air - 24  Ground water - 12  Surface Water - 12  Noise level - 24  Soil Samples – 12  PM2.5 - 10 to 28 Microgram/cubic meter  PM10 - 50 to 74 Microgram/cubic meter  SO2 - 5 to 18 Microgram/cubic meter  NO2 - 6 to 15 Microgram/cubic meter  Noise level - dB (A)  Day Leq&amp; 43.8 dB to 59.1 dB  Night Leq&amp; 37.0 dB to 49.40 dB  is less than the prescribed standard level of the area.  Flora &amp; Fauna Study - Submitted</p>

G.L.C. Calculation	<p>PM2.5 - max. value 28.76 Microgram/cubic meter  PM10 - max. value 75.26 Microgram/cubic meter  SO2 - max. value 20.19 Microgram/cubic meter  NO2 - max. value 15.21 Microgram/cubic meter  Below the prescribed Indian standard limit.</p>
Public Hearing	<p>Date – 02/02/2024  Time - 12:00 PM  Place – Gram Panchayat Bhawan Ghodhari, Tehsil &amp; District -Mahasamund  The public hearing document has been sent by the letter dated 22/04/2024 of Member Secretary, Chhattisgarh Environment Conservation Board, Nav Raipur Atal Nagar, District-Raipur.</p>
Public Hearing	<p>The following suggestions/ideas have been presented:-  The statement regarding resolution is as follows:-</p>
C.E.M.P.	<p>Proportionate budget under common EMP of cluster applicants for 5 years for the proposed work - Rs 1,67,60,000/-  Participation of Project Proponent: Amount for 5 years for the proposed work – Rs 83,900 /-</p>
Category	<p>B1  The total area including the applied mine is 17.83 hectares.</p>

Affidavits submitted regarding –

Affidavit related to the project

- Top soil preservation & storage.
- Completion certificate of 7.5 meter wide safety zone plantation and proposed work under CER activities will be submitted along with Geotag photographs in six monthly compliance report.
- 90% survival rate of Plantation.
- Demarcation will be done by boundary pillars as Mineral Concession Rules.
- Water sprinkling arrangements for fugitive dust emission.
- Any type of polluted water will not be released into any natural water source.
- Employment given to the local people as per the rules of the State Government.
- No court case pending relating to this project before any Court of Law in India.
- No violation of Notification S.O. 804(E) dated 14/03/2017 issued by the Ministry of Environment, Forest and Climate Change, Government of India.
- The direction given in order by the Honorable Supreme Court on 08/01/2020 writ petition (S) Civil No.114 /2014 common cause vs. Union of India & Ors will be followed.
- We will follow the instructions given in the Office Memorandum dated 28/04/2023 issued by the Ministry of Environment, Forest and Climate Change, Government of India, New Delhi.
- The direction given by the Honourable Supreme Court on order dated 02/08/2017 in common cause vs Union of India writ petition (C) 114 of 2014 will be followed.
- The conditions given in the environmental clearance will be followed.
- It will be my responsibility to protect all the interests related to the owners of the land applied for excavation and to follow all the rules of India.
- The refilling will be done by me on the excavated portion of 7.5 meter border strip as per the refilling plan presented before you. In the refilled area, saplings will be planted in three rows and their names and numbers will be written along with the photograph and the same will be submitted to your office in the six month compliance report.
- Amount/expense to be incurred by Project proponent for execution of his part in combined proposal of CER work.
- we will fulfill all the assurances given to the villagers regarding the resolution of various issues during the public hearing.
- We will form an Environment Committee comprising all the applicants in the cluster, on which an environmentalist will be appointed.

Total Project Cost

Rs. 6.35 Lakhs

CER Details :

Project Proponent Proposed combine project plan of CER work (Installation of Rain Water Harvesting System and Maintenance for 5 Year.) for 2 different nearby mine leases.

At Village – Barkoni (Shashkiy Prathmic Shala). The total amount of expenses in the five years will be Rs. 76,000/-

Amount to be incurred by Project proponent for execution of his part in combined proposal of CER work is Rs. 20,000/- (respected to project cost)

Capital Investment (in Lakh Rupees)	Percentage of Capital Investment to be Spent	Amount Required for CER Activities (in Lakh Rupees)	Amount Paid
6.35	2%	0.127	Particulars  Following at Village - (Shala)  Installation in Water Har g System Maintenance Years  Total

Consent of School Head Master is submitted for proposed CER
