Government of India
Ministry of Environment, Forest and Climate Change
(Issued by the State Environment Impact Assessment
Authority(SEIAA), CHHATTISGARH)

Dated 26/06/2025

To,

JHALARAM CHANDRAKAR
Barbaspur Farshi Pathar Quarry
Ward No. - 18, barbaspur, Mahasamund, Birkoni, , MAHASAMUND, CHHATTISGARH, 493445
ec.jhalaram222@gmail.com

Subject: Grant of prior Environmental Clearance (EC) for mining of Flagstone capacity – 485.2 cum/Year (1,213 TPA) (maximum production quantity as per mining plan) in Kharsa No. 168(Part), 169(Part), 177(Part), area – 0.5 Ha. of Village – Barbaspur, Tehsil & District – Mahasamund, Chhattisgarh under the provisions of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application submitted to SEIAA vide proposal number SIA/CG/MIN/473002/2024 dated 25/07/2024 for grant of prior Environmental Clearance (EC) to Mr. Jhalaram Chandrakar for mining of Flagstone capacity – 485.2 cum/Year (1,213 TPA) (maximum production quantity as per mining plan) in Kharsa No. 168(Part), 169(Part), 177(Part), area – 0.5 Ha. of Village – Barbaspur, Tehsil & District – Mahasamund, Chhattisgarh under the provision of the EIA Notification 2006-and as amended thereof.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC24B0108CG5404686N
(ii) File No.	OL/REAPP_TOR/MIN/MSD/2197
(iii) Clearance Type	Fresh EC
(iv) Category	B1
(v) Project/Activity Included Schedule No.	1(a) Mining of minerals
(vii) Name of Project	Barbaspur Farshi Pathar Quarry of Jhalaram Chandrakar
(ix) Location of Project (District, State)	MAHASAMUND, CHHATTISGARH
(x) Issuing Authority	SEIAA
(xii) Applicability of General Conditions	No

SEIAA in its 195th Meeting held on 02/06/2025 perused the case and minutes of the 581st meeting of SEAC-2 held on 03/03/2025. It is noted that original application is for mining of Flagstone (Minor Minerals) capacity - 485.2 cum/Year (1,213 TPA). After deliberation, SEIAA unanimously accepted the recommendation of SEAC-2 and decided to grant environmental clearance for mining of Flagstone capacity – 485.2 cum/Year (1,213 TPA) (maximum production quantity as per mining plan) in Kharsa No. 168(Part), 169(Part), 177(Part), area – 0.5 Ha. of Village – Barbaspur Tehsil & District – Mahasamund, Chhattisgarh subject to the submission of following documents :-

PP shall submit revised consent letter for CER works with proper mentioning of respective applied mine owner name, khasra and area details of applied mine.

With reference to the above, Project proponent has submitted the consent of Head Master, Govt. Primary School, Village – Paraswani for CER works by Mr. Jhalaram Chandrakar on 11.06.2025.

3. This Environment Clearance is for mining of Flagstone capacity – 485.2 cum/Year (1,213 TPA) (maximum production quantity as per mining plan) in Kharsa No. 168(Part), 169(Part), 177(Part), area – 0.5 Ha. of Village – Barbaspur Tehsil & District – Mahasamund, Chhattisgarh.
4. In view of the particulars given in the Para 1 above, the project proposal interalia including Form-2(Part A, B and C)/ EIA & EMP Reports were submitted to the SEIAA for an appraisal by the SEIAA under the provision of EIA notification 2006 and its subsequent amendments.
5. The above-mentioned proposal has been considered by SEIAA in the meeting held on 02/06/2025. The minutes of the meeting and all the project documents are available on PARIVESH portal which can be accessed from the PARIVESH portal by scanning the QR Code above. Brief description of the project is as under: Farshi Pathar is building material. Project provide revenue to Government & create Employment.
6. Details of the minerals to be mined along with production capacity and the brief on the salient features of the project as submitted by the project proponent in Form 1 (Part A and B) in the reports and as presented during SEIAA are annexed to this EC as Annexure (1).
7. The SEIAA, in its meeting held on 02/06/2025, based on information submitted viz: Form 1 (Part A, B and C), EIA/EMP report etc & clarifications provided by the project proponent and after detailed deliberations on all technical aspects and public hearing issues and compliance thereto furnished by the Project Proponent, recommended the proposal for grant of Environment Clearance under the provision of EIA Notification, 2006 and as amended thereof subject to stipulation of Specific and Standard EC conditions as detailed in the point below.
8. The SEIAA has examined the proposal in accordance with the provisions contained in the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and based on the recommendations of the SEIAA hereby accords Environment Clearance for the instant proposal to Mr. JHALARAM CHANDRAKAR under the provisions of EIA Notification, 2006 and as amended thereof subject to compliance of the Specific and Standard EC conditions as given in Annexure (2)
9. The Ministry reserves the right to stipulate additional conditions, if found necessary.
10. The Environmental Clearance to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.
11. The PP is under obligation to implement commitments made in the Environment Management Plan, which forms part of this EC.
12. General Instructions:
 1. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of SEIAA website where it is displayed.
 2. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local

bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn must display the same for 30 days from the date of receipt.

3. The project proponent shall have a well laid down environmental policy duly approved by the Board of Directors (in case of Company) or competent authority, duly prescribing standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions.
4. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the project proponent (during construction phase) and authorized entity mandated with compliance of conditions (during operational phase) shall be prepared. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Six monthly progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report.
5. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
6. The Regional Office of this SEIAA shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
7. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

13. This issue with an approval of the Competent Authority.

Annexure 1

Specific EC Conditions for (Mining Of Minerals)

1. Specific Conditions

S. No	EC Conditions
1.1	<ol style="list-style-type: none"> 1. Project proponent shall complete the restoration work of excavated 7.5 meter wide safety green belt area with in six months from the date of issued of this EC letter. 2. Project proponent shall complete the plantation work in the 7.5 wide green belt area on or before September 2025. 3. Chhattisgarh Environment Conservation Board shall ensure that the restoration work within 6 months and plantation work in the 7.5 wide safety green belt area on or before September 2025. CTO will be issued only after inspection and satisfying that the restoration work and plantation have been completed successfully.

Standard EC Conditions for (Mining of minerals)

1.

S. No	EC Conditions
1.1	<p>Additional Conditions</p> <ol style="list-style-type: none"> 1. No excavation work will be done in the future around the mine area (area restricted for excavation). 2. Top soil will be kept in the restricted area for excavation of the lease area and PP shall ensure to conserve the top soil for reclamation of mine and for plantation. 3. Dense plantation of trees (327 nos) on the 7.5 meter wide safety zone around mine lease area (area restricted for excavation) and ensuring a 90 percent survival rate of the planted plants. 4. The project proponent shall complete restoration of excavated part of 7.5 meter wide safety zone upto September 2025. 5. The project proponent shall complete plantation in 7.5 meter wide safety zone in the upcoming first monsoon season. 6. Regular water sprinkling arrangements in the mine lease area and also in haul road to control the fugitive dust emissions. 7. Employment provided to the local people under the Chhattisgarh Model Rehabilitation Policy. 8. Project proponent shall ensure that any kind of contaminated water (if generated) shall not flow into the natural water source, pond, river, drain under any circumstances. 9. There should be regular monitoring of the mining activities in the State to ensure effective compliance of stipulated EC conditions and of the provisions under the Minor Mineral Concessions Rules framed by the State Government. 10. Project proponent shall ensure that mining operation shall be carried out after sunrise and before sunset. 11. The pollution load due to transportation on the environment shall be effectively controlled and water sprinkling shall also be done regularly. 12. Project proponent shall ensure that the construction of boundary pillars as per Mineral

S. No	EC Conditions
	<p>Concession Rules, 1960 (as amended).</p> <p>13. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded.</p> <p>14. Project proponent shall ensure at the time of closure of mine the whole pit will be reclaimed by overburden/ topsoil etc. and do native tree species plantation.</p> <p>15. Project proponent shall submit Completion certificate of proposed plantation under CER activities, CEMP, 7.5 meter wide safety barrier plantation along with Geotag photographs in six monthly compliance report.</p> <p>Standard EC conditions - Statutory compliance:</p> <ol style="list-style-type: none"> 1. The Environmental clearance shall be subject to orders issued by the Hon'ble Supreme Court of India, Hon'ble High Courts, NGT and any other Court of Law, from time to time, and as applicable to the project. 2. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project. 3. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable. 4. The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of schedule-I species in the study area). 5. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State pollution Control Board/ Committee. 6. The project proponent shall obtain the necessary permission from the Central Ground Water Authority or competent authority for usage of water. 7. Solid/hazardous waste generated in the mines needs to addressed in accordance to the Solid Waste Management Rules, 2016/Hazardous & Other Waste Management Rules, 2016. 8. Permission of power supply to be taken from the concerned authority for meeting power demand of the project site. 9. The maximum production or peak production at any given time shall not exceed the limit as prescribed in the EC. 10. The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time. 11. Validity of EC is as per life of the mine mentioned in EC letter or 30 years (i.e.

S. No	EC Conditions
	<p data-bbox="496 232 1299 264">09/09/2042) as per EIA Notification, 2006 and its amendments therein.</p> <p data-bbox="416 293 951 324">Air quality monitoring and mitigation measure:</p> <ol data-bbox="469 331 1473 1599" style="list-style-type: none"> <li data-bbox="469 331 1473 501">1. Ambient air quality monitoring shall be conducted once in a year in the core zone as well as in the buffer zone for monitoring of pollutants, namely particulates, SO₂ and NO_x. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive receptors. The report shall be submitted to the SEIAA, C.G./ SEAC, C.G. <li data-bbox="469 528 1473 663">2. The Ambient Air Quality monitoring in the core zone shall be carried out. Data on ambient air quality and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly reported to the Ministry/Regional Office and to the CPCB/SPCB. <li data-bbox="469 689 1473 936">3. Transportation of minerals, to the extent if permitted by road, shall be carried out by covered trucks. Effective control measures such as regular water sprinkling etc., shall be carried out in critical areas prone to air pollution with higher level of particulate matter all through the transport roads, loading/unloading and transfer points. Fugitive dust emissions from all sources shall be controlled regularly. It shall be ensured that the ambient air quality parameters conform to the norms prescribed by the Central/State Pollution Control Board. <li data-bbox="469 963 1078 994">4. Major approach roads shall be properly maintained. <li data-bbox="469 1021 1473 1084">5. PP to install solar lights along the road used for transportation to avoid the accidents at night and also seek its maintenance. <li data-bbox="469 1111 1473 1245">6. The transportation of mineral shall be carried out as per the provisions and route proposed in the approved mining plan. Road passing through any village shall be avoided. In case, it is proposed to construct a 'bypass' road, it should be so constructed that the impact of sound, dust and accidents could be appropriately mitigated. <li data-bbox="469 1272 1473 1379">7. Vehicular emissions shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied activities shall operate only after obtaining 'PUC' certificate from the authorized pollution testing centers. <li data-bbox="469 1406 1458 1438">8. Water sprinkling arrangement shall be provided to reduce the impact of air pollution. <li data-bbox="469 1464 1473 1599">9. Post environmental closure third party monitoring by reputed instituted in air quality, water, land & soil etc shall be carried out and analyses with EMP measures at regular interval. A suitable recommendation in this regard, shall be furnished to IRO, MoEF&CC for compliance. <p data-bbox="416 1626 991 1657">Water quality monitoring and mitigation measures:</p> <ol data-bbox="469 1664 1473 2036" style="list-style-type: none"> <li data-bbox="469 1664 1473 1874">1. Regular monitoring of ground water level and quality shall be carried out in and around the mine lease area by establishing a network of existing wells and constructing new piezometers during the mining operations. The monitoring of ground water levels shall be carried out four times a year i.e. pre-monsoon, monsoon, post-monsoon and winter. The ground water quality shall be monitored once a year, and the data thus collected shall be sent regularly to MOEFCC/RO. <li data-bbox="469 1901 1473 2036">2. If any river, ponds and lakes close to the mine lease area, monitoring of water quality upstream and downstream of river including ponds, lakes shall be carried out once in six months and record of monitoring data shall be maintained and submitted to the Ministry of Environment, Forest and Climate Change/Regional Office.

S. No	EC Conditions
	<p>3. Ground water, excluding mine water, shall not be used for mining operations. Rainwater harvesting shall be implemented for conservation and augmentation of ground water resources.</p> <p>4. The project proponent shall not alter major water channels around the site. Appropriate embankment shall be provided along the side of the river/nallah flowing near or adjacent to the mine. The embankment constructed along the river/nallah boundary shall be of suitable dimensions and critical patches shall be strengthened by stone pitching on the river front side, stabilized with plantation so as to withstand the peak water pressure preventing any chance of mine inundation.</p> <p>5. Garland drains (of suitable size, gradient and length) around the critical areas i.e. mine shaft and low lying areas, shall be designed keeping at least 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine sites. The sump capacity shall also provide adequate retention period to allow proper settling of silt material of the surface runoff. The water pumped out from the mine, after siltation, shall be utilized for watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p> <p>6. The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz. watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p> <p>7. Adequate groundwater recharge measures shall be taken up for augmentation of ground water. The project authorities shall meet water requirement of nearby village(s) in case the village wells go dry due to dewatering of mine.</p> <p>8. The surface drainage plan including surface water conservation plan for the area of influence affected by the said mining operations shall be prepared, considering the presence of any river/rivulet/pond/lake etc., with impact of mining activities on it, and implemented by the project proponent. The surface drainage plan and/or any diversion of natural water courses shall be as per the provisions of the approved Mining Plan/ EIA-EMP submitted to this Ministry and the same should be done with due approval of the concerned State/GoI Authority. The construction of embankment to prevent any danger against inrush of surface water into the mine should be as per the approved mining plan and as per the permission of DGMS.</p> <p>9. Domestic water shall be providing to the residents/villages which are coming under the zone of influence of the project due to ground water extraction by installing a RO plant.</p> <p>Noise and Vibration monitoring and prevention:</p> <p>1. Adequate measures shall be taken for control of noise levels as per Noise Pollution Rules, 2016 in the work environment. Workers engaged in mining operations shall be provided with personal protective equipments (PPE) like ear plugs/muffs in conformity with the prescribed norms and guidelines in this regard. Adequate awareness programme for users to be conducted. Progress in usage of such accessories to be monitored.</p> <p>2. The noise level survey shall be carried out as per the prescribed guidelines to assess noise exposure of the workmen at vulnerable points in the mine premises, and report in this regard shall be submitted to the Ministry/RO on six-monthly basis.</p>

S. No	EC Conditions
	<p data-bbox="416 232 564 264">Mining Plan:</p> <ol data-bbox="469 271 1471 685" style="list-style-type: none"> <li data-bbox="469 271 1471 338">1. Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate legislations made there-under as applicable. <li data-bbox="469 360 1471 427">2. Mining shall be carried out as per the approved mining plan (including Mine Closure Plan) and the relevant circulars issued by Directorate General Mines Safety (DGMS). <li data-bbox="469 450 1471 595">3. No mining shall be carried out in forest land without obtaining Forestry Clearance as per Forest (Conservation) Act, 1980 and also adhering to The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 read with provisions of Indian Forest Act, 1927. <li data-bbox="469 618 1471 685">4. Efforts should be made to reduce energy and fuel consumption by conservation, efficiency improvements and use of renewable energy. <p data-bbox="416 707 632 739">Land Reclamation:</p> <ol data-bbox="469 745 1471 1637" style="list-style-type: none"> <li data-bbox="469 745 1471 853">1. Post-mining land be rendered usable for agricultural/forestry purposes and shall be handed over to the respective State Government, as specified in the Guidelines for Preparation of Mine Closure Plan. <li data-bbox="469 875 1471 1122">2. Regular monitoring of subsidence movement on the surface over and around the working areas and its impact on natural drainage pattern, water bodies, vegetation, structure, roads and surroundings shall be continued till movement ceases completely. In case of observation of any high rate of subsidence beyond the limit prescribed, appropriate effective mitigation measures shall be taken to avoid loss of life and materials. Cracks should be effectively plugged in with ballast and clay soil/suitable material. <li data-bbox="469 1144 1471 1252">3. A separate team for subsidence monitoring and surface mitigation measures shall be constituted and continuous monitoring & implementation of mitigation measures be carried out. <li data-bbox="469 1274 1471 1382">4. Thorough inspection of the mine lease area for any cracks developed at the surface due to mining activities below ground shall be carried out to prevent inrush of water in the mine. <li data-bbox="469 1404 1471 1435">5. Native tree species shall be selected and planted over areas affected by subsidence. <li data-bbox="469 1458 1471 1637">6. The project proponent shall make necessary alternative arrangements, if grazing land is involved in core zone, in consultation with the State government to provide alternate areas for livestock grazing, if any. In this context, the project proponent shall implement the directions of Hon'ble Supreme Court with regard to acquiring grazing land. <p data-bbox="416 1659 868 1691">Public hearing and Human health issues</p> <ol data-bbox="469 1697 1471 2033" style="list-style-type: none"> <li data-bbox="469 1697 1471 1765">1. Adequate illumination shall be ensured in all mine locations (as per DGMS standards) and monitored. <li data-bbox="469 1787 1471 2033">2. The project proponent shall undertake occupational health survey for initial and periodical medical examination of the personnel engaged in the project and maintain records accordingly as per the provisions of the Mines Rules, 1955 and DGMS circulars. Besides regular periodic health check-up, 20% of the personnel identified from workforce engaged in active mining operations shall be subjected to health check-up for occupational diseases and hearing impairment, if any, as amended time to time.

S. No	EC Conditions
	<p>3. Personnel (including outsourced employees) working in core zone shall wear protective respiratory devices and shall also be provided with adequate training and information on safety and health aspects.</p> <p>4. Skill training as per safety norms specified by DGMS shall be provided to all workmen including the outsourcing employees to ensure high safety standards in mines.</p> <p>5. Effective arrangement shall be made to provide and maintain at suitable points conveniently situated, a sufficient supply of drinking water for all the persons employed.</p> <p>6. PP to conduct need based assessment survey of the area in order to decide the activities to be carried under the CSR and to provide detail of the activity carried out with adequate budgetary provision and time bound action plan.</p> <p>7. Project proponent shall conduct health checkup facilities twice in a year for the villagers.</p> <p>8. PP must ensure an emergency action plan during pandemic in order to provide assistance to the nearby villages.</p> <p>9. PP to take measure for installation of Renewable Energy sources in nearby area falling within 10 km radius</p> <p>Corporate Environment Responsibility:</p> <ol style="list-style-type: none"> 1. The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental/ forest/ wildlife norms/ conditions. 2. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization. 3. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. 	<p>7. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.</p> <p>8. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).</p> <p>9. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.</p> <p>10. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.</p> <p>11. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.</p> <p>12. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/ monitoring reports.</p> <p>13. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.</p> <p>14. The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day light/night hours.</p>

Restricted Area for Mine (Mine Safety Area)
 Area of 7.5 m wide safety zone - 2,695 sqm
 Excavated - Yes
 Mentioned in Mining Plan - Yes
 Restoration Plan - Submitted

Restoration Plan
 As per the approved mining plan, the total area of 7.5 meter mine boundary of the applied mine is 2,695 sqm with an average length of 359.33 m and width of 7.5 m.
 1. Pit-1 area of the safety boundary is 176 sqm 2 meter deep dug out with an average length of 23 m and width of 7.5 m.
 2. Pit-1 area of the excavated safety boundary will be backfilled with approximately 704 cubic meter of murrum, overburden and bad stone to form a 60 degree slope, along with this, 0.50 m thick pitching will be done in the boundary slope using 46 cubic meter of stone to strengthen the boundary slope.
 3. Pit-2 area of the safety boundary is 360 sqm, 4 m deep excavated, whose length is 48 m and width is 7.5 m.
 4. The excavated Pit-2 area of the safety boundary will be backfilled with approximately 2,880 cubic meters of murrum, overburden and bad stones by creating a 60 degree slope. Along with this, to strengthen the boundary slope, 0.50 m thick pitching will be done in the boundary slope using 192 cubic meters of stones.
 5. Pit-3 area of the lease area is 480 sqm, 9 m deep excavated, whose length is 34 m and width is 14 m.
 6. Pit-3 area of the lease area will be backfilled with approximately 8,640 cubic meters of murrum, overburden and bad stones.

	<p>7. Pit-4 area of the lease area is 1,520 sqm 6 m deep excavated with a length of 43 m and width of 35 m.</p> <p>8. Pit-4 area of the lease area will be backfilled with approximately 18,520 cubic meters of murrum, overburden and bad stone.</p>
Non mining zone	No
Top Soil / Over Burden Management Plan	<p>Depth - 2 meter</p> <p>Quantity - 1,784 m³</p> <p>Management detail -</p> <ul style="list-style-type: none"> · 573 cum topsoil will be stacked along with 218 m long 4.5 m outer mine boundary in 1674 sqm area with maximum 1 m height and 28 degree of slope and plantation will be done. · Rest of 1,211.00 cum top soil is will be preserved over unused part of lease area.
Water Requirement	<p>Quantity – 4.5 KLD</p> <p>Source – Accumulated water in mine pit, Tankers & Bore well</p> <p>NOC has been obtained from Central Ground Water Authority and a copy has been submitted.</p>
Plantation Work	<p>Plantation of trees around 7.5 meters of lease area – 218 meter</p> <p>Current Plantation – 100 nos</p> <p>Proposed Plantation – 227 nos</p> <p>Amount for 5 years for the proposed plantation work (Total plantation – 227 nos.) - Rs. 9,60,000/-</p>
TOR issued	<p>Serial no.- 22 ,Date - 03/04/2023,</p> <p>Standard ToR of 1(A) with public hearing</p>
Analysis of EIA report	<p>Monitoring Period - October 2021 to December 2021</p> <p>Quality measurement site:</p> <p>Ambient Air - 24</p> <p>Ground water - 12</p> <p>Surface Water - 12</p> <p>Noise level - 24</p> <p>Soil Samples – 12</p> <p>PM_{2.5} - 10 to 28 Microgram/cubic meter</p> <p>PM₁₀ - 50 to 74 Microgram/cubic meter</p> <p>SO₂ - 5 to 18 Microgram/cubic meter</p> <p>NO₂ - 6 to 15 Microgram/cubic meter</p> <p>Noise level - dB (A)</p> <p>Day Leq & 43.8 dB to 59.1 dB</p> <p>Night Leq & 37.0 dB to 49.40 dB</p> <p>Is less than the prescribed standard level of the area.</p> <p>Flora & Fauna Study - Submitted</p>

Calculation	<p>For Existing Node 1 (Junction of village road and road coming from all mine site of Barbaspur & Ghodhari)</p> <p>Volume - 40 PCU/hr.</p> <p>V/C ratio - 0.086, A (Excellent)</p> <p>For After Project : Node 1</p> <p>Volume - 52 PCU/hr.</p> <p>V/C ratio - 0.11, A (Excellent)</p> <p>For Existing Node 2 (Junction at highway - NH-53 from Raipur to Pithora road and road coming from all mine site of Barbaspur & Ghodhari)</p> <p>Volume 288.45 PCU/hr.</p> <p>V/C ratio – 0.24, B (Very Good)</p> <p>For After Project : Node 2</p> <p>Volume 480.85 PCU/hr.</p>

- No violation of Notification S.O. 804(E) dated 14/03/2017 issued by Ministry of Environment, Forest and Climate Change, Government of India.
- Memorandum issued on 28/04/2023 by the Ministry of Environment, Forest and Climate, Government of India, New Delhi will be followed.
- Information on the works proposed under CER will be included in the half-yearly report along with geo tagged photographs.
- Top soil storage and preservation.
- 90% survival rate of plantation.
- Demarcation will be done by boundary pillars as per Mineral Concession Rules.
- All the conditions set by the committee will be followed and a six month compliance report will be submitted to the Environment Office.
- Contaminated water will not discharge into natural water sources.
- Water sprinkling arrangements for fugitive dust emission.
- Landowners will be provided compensation as per rules and employment opportunities on priority basis.
- It will be our responsibility to protect all the interests related to the land and follow all the rules of India.
- The objections, suggestions or issues raised during the public hearing will be resolved as per the reply and information submitted by me.
- To comply the Hon'ble Supreme Court Judgment dated 02 August 2017 in Writ Petition (Civil) No 114 of 2014 in the matter of Common Cause Vs Union of India.
- The direction given by the Honorable Supreme Court on 08/01/2020 in writ petition (S) Civil No.114 /2014 common cause vs. Union of India & Ors will be followed.
- In order to comply with the common Environmental Management Plan, an Environmental Committee shall be formed by all the applicants in the cluster as per the environmental guidelines on which an environmentalist shall be appointed.
- The excavated portion of 7.5 meter boundary will be refilled as per the presented restoration plan and plantation of trees in 3 rows along with photographs along with name and number of plants will be submitted in the half yearly report.

Total Project Cost

Rs. 5.67 Lakh/-

CER Details :

Project Proponent Proposed combine project plan of CER work (Installation of Rain Water Harvesting) for 3 different nearby mine leases.

Installation of Rain Water Harvesting shall be done under the provisions of Corporate Environment Responsibility Act Govt. Primary School, Village – Paraswani. The total amount of expenses in the five years will be Rs. 67,000/-.

Amount/expense to be incurred by Project proponent for execution of his part in combined proposal of CER work is Rs. 23,000/- (respected to project cost).

Capital Investment (in Lakh Rupees)	Percentage of Capital Investment to be Spent	Amount Required for CER Activities (in Lakh Rupees)	Amount Proposed & Details for CER Activities (in Lakh Rupees)	
			Particulars	CER Fund Allocation (in Lakh Rupees)
5.67	2%	0.113	Following activities Nearby, at Govt. Primary School Village – Paraswani	

			Installation of Rain Water Harvesting System and Maintenance for 5 Year.	0.23
			Total	0.23

The consent letter of the Principal has been submitted for the CER works to be done in the proposed school. Affidavit for execution of part of CER work of applicant has been submitted.
