**Subject:** Rejection of Environmental Clearance (EC) to the proposed Project under the EIA Notification 2006-  
and as amended thereof -regarding.

**Sir/Madam,**

This is in reference to your application submitted to Ministry vide proposal number SIA/OR/MIN/469236/2024 dated null for Rejection of prior Environmental Clearance (EC) to the project under the provision of the EIA Notification 2006-and as amended thereof.

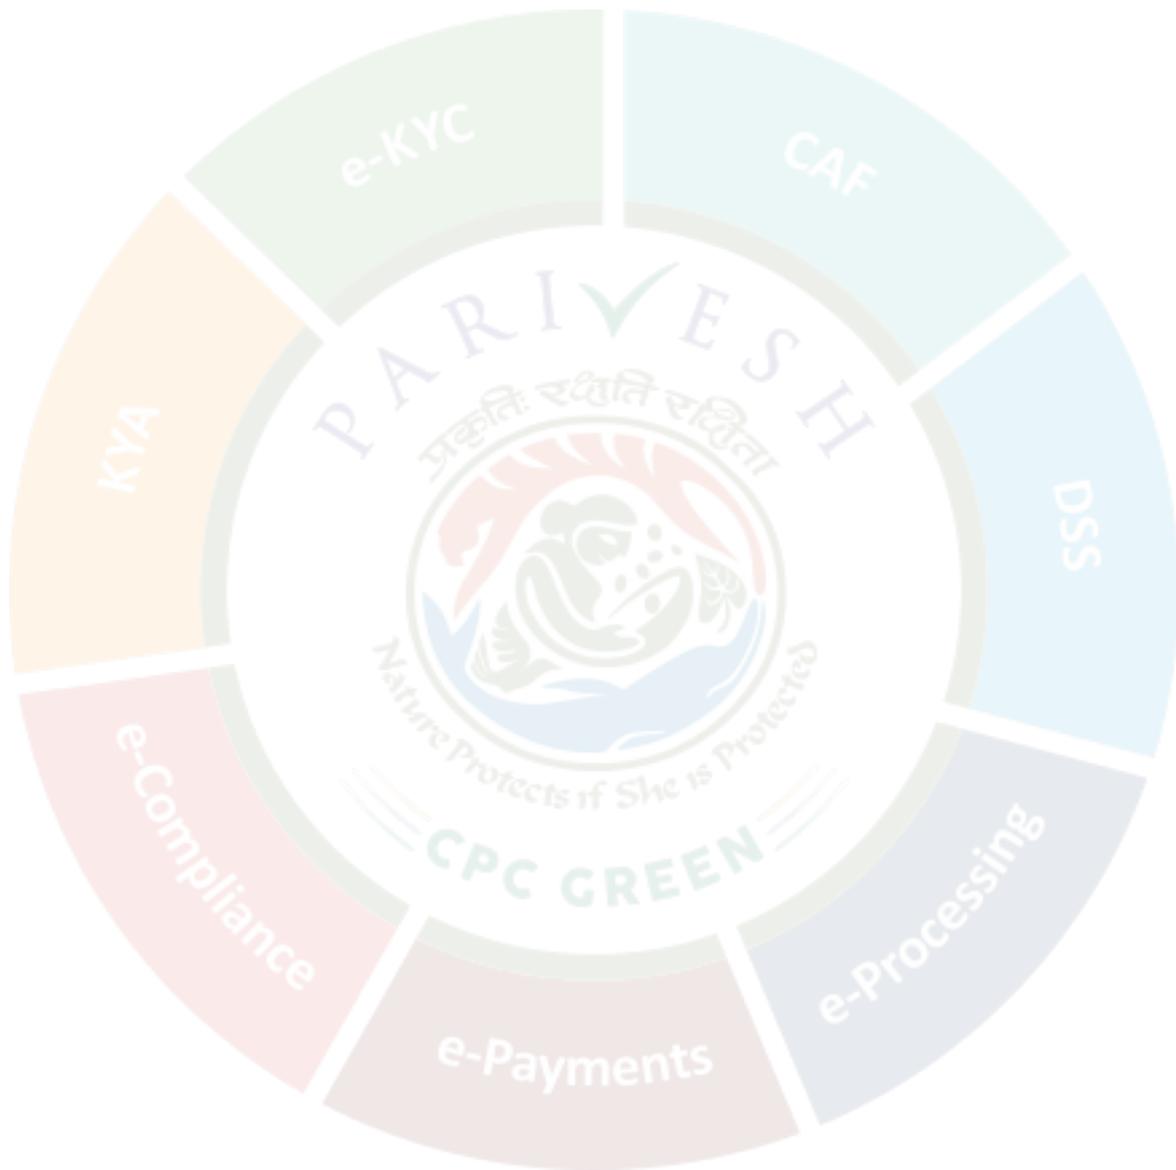

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC24C0107OR5136485A
(ii) File No.	469236/176-MIN/04-2024
(iii) Clearance Type	Amendment in EC
(iv) Category	B2
(v) Project/Activity Included Schedule No.	1(a) Mining of minerals PROPOSAL FOR AMENDMENT ENVIRONMENT CLEARANCE OF KHARASROTA RIVER SAND,BANKIPALA OVER AN AREA OF 11.0 ACRES OR 4.45 HA. AT VILLAGE BANKIPALA, TAHASIL BINJHARPUR, DISTRICT JAJPUR
(vii) Name of Project	
(viii) Name of Company/Organization	JYOTI PARIDA
(ix) Location of Project (District, State)	JAJAPUR, , ODISHA,
(x) Issuing Authority	SEIAA
(xi) Applicability of General Conditions as per EIA Notification, 2006	No

N/A

**File No. SIA/OR/MIN/469236/2024**

Dated 23<sup>rd</sup> July, 2024.  
Bhubaneswar

To

Sri Jyoti Ranjan Parida  
Village Bankipala, Tahasil Binjharpur,  
District Jajpur

Sub: Proposal for Amendment of EC of Kharasrota River Sand, Bankipala Over an area of 11.0 Acres or 4.45 Ha. at Village Bankipala, Tahasil Binjharpur, District Jajpur - reg.

Ref: Minute of 167<sup>th</sup> meeting of SEIAA held on 03.06.2024.

Sir,

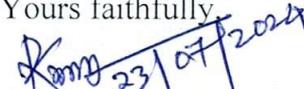

In inviting a reference to the above cited subject, I am directed to inform you that the proposal was placed in the meeting of SEIAA held on 03.06.2024 for consideration of Amendment in EC. After detailed deliberation in the matter, the authority accepted the recommendation of SEAC and decided to reject the amendment in EC application due to the following reason cited by SEAC:-

- (i) Pre-monsoon S.W.A. is 20823 sqm and Av. R.L is 10.156m. Post-monsoon S.W.A. is 32502 sqm. and Av. R.L is 10.321 m. C.S.W.A. is 20823 sqm. and Av thickness of deposition is 0.135m. in the survey area.
- (ii) In the R.S. report, it is mentioned Volume of sand deposited = 9775cum and Average thickness of deposition in the comm on workable area (CSWA) = 0.183m.
- (iii) It is also mentioned there in that Average thickness of deposition in the Common workable area =  $9775 / 53325 = 0.183m$ . Here 53325 sqm is considered as C.S.W.A.
- (iv) It is also mentioned in the R.S. report that considering a common safe workable area of 0.5332ha, it is observed that replenishment of 8175cum has been done with an average thickness of 0.153m. So, replenishment of sand per ha =  $8175 / 0.5332 = 15332$  sqm (This statement is totally confusing as cum / ha will not be sqm).
- (v) The R.S. report is not acceptable with these contradictory data i.e. 3 different type of average thickness of deposition and two different type of CSWA.

After detailed deliberation in the matter, the authority accepted the recommendation of SEAC and decided to reject the proposal for amendment in EC.

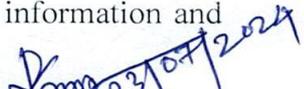

This is for your kind information.

Yours faithfully,

  
Environmental Scientist
