Dated 12/07/2024

To,

SHIDDAPPA HUGAR  
SHIDDAPPA HUGAR  
NO.187 Aihole, Bagalkot District, Karnataka., GADAG, KARNATAKA, 587101  
siddappagadag@yandex.com

**Subject:** Grant of EC under the provision of the EIA Notification 2006-regarding.

**Sir/Madam,**

This is in reference to your application for Grant of EC under the provision of the EIA Notification 2006-regarding in respect of project Sri Siddappa, submitted to Ministry vide proposal number SIA/KA/MIN/451817/2023 dated 14/03/2024.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC23C0107KA5369624N
(ii) File No.	SEIAA 05 MIN 2024
(iii) Clearance Type	EC
(iv) Category	B2
(v) Project/Activity Included Schedule No.	1(a) Mining of minerals
(vii) Name of Project	Sri Siddappa,
(viii) Name of Company/Organization	SHIDDAPPA HUGAR
(ix) Location of Project (District, State)	GADAG, KARNATAKA
(x) Issuing Authority	SEIAA
(xii) Applicability of General Conditions	no
(xiii) Applicability of Specific Conditions	no

3. In view of the particulars given in the Para 1 above, the project proposal interalia including Form-1(Part A and B) were submitted to the Ministry for an appraisal by the State Environment Impact Assessment Authority(SEIAA) Appraisal Committee (SEIAA) in the Ministry under the provision of EIA notification 2006 and its subsequent amendments.

4. The above-mentioned proposal has been considered by State Environment Impact Assessment Authority(SEIAA) Appraisal Committee of SEIAA in the meeting held on 08/05/2024. The minutes of the meeting and all the Application

and documents submitted [(viz. Form-1 Part A, Part B, Part C EIA, EMP)] are available on PARIVESH portal which can be accessed by scanning the QR Code above.

5. The brief about configuration of plant/equipment, products and byproducts and salient features of the project along with environment settings, as submitted by the Project proponent in Form-1 (Part A, B and C)/EIA & EMP Reports/presented during SEIAA are annexed to this EC as Annexure (1).
6. The SEIAA, in its meeting held on 08/05/2024, based on information & clarifications provided by the project proponent and after detailed deliberations recommended the proposal for grant of EC under the provision of EIA Notification, 2006 and as amended thereof subject to stipulation of specific and general conditions as detailed in Annexure (2).
7. The SEIAA has examined the proposal in accordance with the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and after accepting the recommendations of the State Environment Impact Assessment Authority (SEIAA) Appraisal Committee hereby decided to grant EC for instant proposal of M/s. SHIDDAPPA HUGAR under the provisions of EIA Notification, 2006 and as amended thereof.
8. The Ministry reserves the right to stipulate additional conditions, if found necessary.
9. The EC to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.
10. This issues with the approval of the Competent Authority.

**Annexure 1**

**Specific EC Conditions for (Mining Of Minerals)**

**1. Specific Condition**

S. No	EC Conditions
1.1	<p><i>The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following[1] :</i></p> <ol style="list-style-type: none"> <li>1. <i>If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).</i></li> <li>2. <i>Safety measures proposed shall be submitted.</i></li> <li>3. <i>A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished[2]. The PP shall furnish the contact details and email ids of beneficiary.</i></li> <li>4. <i>The proponent shall furnish a certificate that there is no sand quarry within 5 KM of project site.</i></li> </ol> <p><b><u>Additional Conditions:</u></b></p> <ol style="list-style-type: none"> <li>1. <i>The PP shall utilize the permission as per the Sand policy of the GoK Notification No. CI 343 MMN 2019 (Part 7) dated 01.12.2021</i></li> <li>2. <i>The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.</i></li> <li>3. <i>The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.</i></li> </ol>

S. No	EC Conditions
	<p>4. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.</p> <p>5. Dust suppression measures have to be strictly followed.</p> <p>6. The PP shall grow trees all along the approach road &amp; buffer zone during the first year of operation. Wherever it is not feasible to plant a tree due to geographical conditions or space constrain in the proposed project area, Proponent shall plant a tree elsewhere surrounding that area in location like School/college/Hostels/Temple etc., undertaking and contact details and Email IDs of beneficiary shall be submitted.</p> <p>7. The PP shall construct a rain water harvesting structure/ recharge pits in the project area. If geographical conditions or space constrain in the proposed project area not permites to do so, Proponent shall built a Rain water Harvesting structures / recharge pits elsewhere surrounding that area in location like School/college/Hostels/Temple etc., undertaking and contact details and Email IDs of beneficiary shall be submitted.</p> <p>8. The Project Proponent shall strengthen the approach road atleast by laying metaling road with minimum thickness of 20 CM of gravel and 2 layers of metal (minimum 7.5 CM thickness) however, Proponent shall adapt asphaltting or Concrete Road as per IRC standard if desired.</p> <p>9. The PP shall implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completion of mining operation.</p>

(Constituted by MoEF, Government of India, under section 3(3) of E(P) Act, 1986)

No. SEIAA 05 MIN 2024

To,

Sri Siddappa Hugar  
S/o Irabasappa Hugar  
No. 187, Aihole,  
Bagalkote District  
Karnataka

Sir,

**Sub:** Proposed Ordinary Sand mining project at Sy.No.8/2, 8/3, 8/4, 8/5, 9/2, 9/3, 9/4 & 9/5 of Kuravinakoppa Village, Rona Taluk, Gadag District (10-25 Acres), Karnataka by Sri Siddappa Hugar – Issue of Environment Clearance– reg.

\*\*\*

This has reference to your online application dated 08.11.2023 bearing proposal No. SIA/KA/MIN/451817/2023 addressed to SEIAA, Karnataka on the subject mentioned above. It has been noted that the proposal is for grant of environmental clearance under the provisions of EIA Notification, 2006, for mining of Sand in the following sand block. The total mining lease area of the project is 10-25 Acres (4.299 Ha), which is a Patta Land. Out of 4.299 Ha of area, 3.573 Ha area is for mining and 0.723 Ha area is for safety zone. Working will be opencast and semi mechanized method. Working will be opencast and semi mechanized method. The water requirement for the project is 9.11KLD, it will be met from nearest village Borewell.

Ordinary Sand Quarry: Extent: 10-25 Acres (4.299 Ha), at Sy.No.8/2, 8/3, 8/4, 8/5, 9/2, 9/3, 9/4 & 9/5 of Kuravinakoppa Village, Rona Taluk, Gadag District (10-25 Acres), Karnataka. The area is located in Survey of India Topo Sheet No.48 M/9 bounded by following co-ordinates of WGS – 84.

Corner points	Latitude	Longitude
A	N 15 <sup>0</sup> 49' 51.9''	E 75 <sup>0</sup> 40' 48.08.2''
B	N 15 <sup>0</sup> 49' 52.0''	E 75 <sup>0</sup> 40' 48.10.7''
C	N 15 <sup>0</sup> 49' 51.8''	E 75 <sup>0</sup> 40' 48.14.4''
D	N 15 <sup>0</sup> 49' 52.3''	E 75 <sup>0</sup> 40' 48.18.0''
F	N 15 <sup>0</sup> 49' 52.5''	E 75 <sup>0</sup> 40' 48.21.6''
F	N 15 <sup>0</sup> 49' 48.9''	E 75 <sup>0</sup> 40' 48.22.0''
G	N 15 <sup>0</sup> 49' 48.8''	E 75 <sup>0</sup> 40' 48.19.6''
H	N 15 <sup>0</sup> 49' 48.5''	E 75 <sup>0</sup> 40' 48.18.4''
I	N 15 <sup>0</sup> 49' 48.2''	E 75 <sup>0</sup> 40' 48.15.0''
J	N 15 <sup>0</sup> 49' 48.6''	E 75 <sup>0</sup> 40' 48.11.3''
K	N 15 <sup>0</sup> 49' 49.1''	E 75 <sup>0</sup> 40' 48.08.7''

Working will be of open cast semi-mechanized method as per the Sustainable Sand Mining Management Guidelines, 2016 issued by the MoEF&CC, Government of India. The Deputy Director, Department of Mines and Geology, Gadag on 01.09.2023 has approved the quarrying plan. It is reported that the lease area do not attract General Conditions specified in the EIA Notification, 2006 and the amendments made thereon.

The State Expert Appraisal Committee (SEAC) appraised the project in its meetings held on 8<sup>th</sup> & 9<sup>th</sup> May 2024 and recommended for issue of environmental clearance. The State Level Environment Impact Assessment Authority (SEIAA), Karnataka have considered the application in its meeting held on 3<sup>rd</sup> & 4<sup>th</sup> June 2024 in accordance with the EIA Notification 2006 and in the light of the recommendation made by SEAC. The Authority have decided to accord environmental clearance to the above mentioned Sri Siddappa Hugar for Quarrying of Ordinary Sand as recommended by State Expert Appraisal Committee (SEAC) for production capacities of 36,878.52 Tonnes per Annum for a period of five years by Open cast and Semi mechanized method involving quarry lease area of 10-25 Acres subject to implementation of the following conditions and environmental safeguards.

**A. SPECIFIC CONDITIONS:**

1. Validity of this Environmental Clearance is limited to five years from the date of issue of this letter.
2. Quarry plan approved by the Department of Mines and Geology shall be strictly implemented and shall not be operated beyond the validity period of the approved quarry plan or this EC whichever is earlier.
3. Quarrying shall be undertaken strictly in accordance with provisions of MM (D&R) Act 1957 / KMMC RULES-1994.
4. All the conditions stipulated in the Consent for establishment issued (if applicable) by the Karnataka State Pollution Control Board should be effectively implemented.
5. Use of mechanized boats fitted with engines and suction pumps are strictly prohibited.
6. Quarrying below water level shall not be undertaken.
7. No drilling and blasting operations shall not be undertaken
8. The quarrying of sand shall be undertaken after safe removal and scientific stacking of top soil up to a depth of 2.0 meter and sand mining shall be undertaken to a maximum depth of 3.0 meter, however no mining shall be undertaken below R.L. of 533.5 MSL.
9. The quarrying operations shall not intersect ground water table. Prior approval of the SEIAA / Ministry of Environment & Forests and Central Ground Water Authority shall be obtained for quarrying below water table.
10. The project proponent shall ensure that no natural water force and/ or water resources are obstructed due to mining operations.
11. The topsoil if any should be stacked at earmarked site only and should not be kept unutilized for a period more than 3 years. The topsoil should be used for reclamation and plantation.
12. Waste rock/ pebbles/clay, etc. shall be stacked appropriately in such a way that it does not obstruct the natural hydrology and shall be used for backfilling of mined out pits.
13. No sand mining / transportation from the sand mining shall be undertaken between 6 PM to 6 AM.

14. The project authority should implement suitable conservation measures to augment ground water resources in the area in consultation with the Regional Director, Central Ground Water Board within 3 months and report be submitted to the Authority.
15. Mineral handling area shall be provided with the adequate number of high efficiency dust extraction system. Loading and unloading areas including all the transfer points should also have efficient dust control arrangements. These should be properly maintained and operated.
16. The project proponent shall submit commitment from the competent authority for drawl of requisite quantity of water for the project before starting work on the project.
17. Suitable rainwater harvesting measures on long-term shall be planned and implemented in consultation with Regional Director, Central Ground Water Board for complete rain water harvesting by constructing check dams/convertng quarried pits to rain water harvesting ponds.
18. Consent to operate if applicable shall be obtained from State Pollution Control Board prior to start of production from the quarry.
19. Proper sanitary facilities should be installed for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the labourers.
20. Site specific eco restoration plan shall be implemented.
21. The project proponent shall delineate Quarry Closure Plan/ exit protocol to rehabilitate the quarried out land to match its surrounding land use including removal, storage and reuse of waste rock from quarry area to cover reclaimed area. Post Quarry Land Use Plan with rehabilitation of quarried out area (with Plan and Section) provided and submit to SEIAA.
22. Particulars of production and dispatch shall be provided by the quarry owner yearly.
23. The infrastructure of transport roads should be improved collectively by the quarry owners of the area.
24. Link road from quarry site to main road shall be maintained and black topped by the project proponent.
25. Effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as around loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.
26. The quarry lease area to be properly demarcated using the lat-long coordinates and duly erecting 4 feet concrete/granite pillars on the ground.
27. No quarrying shall be undertaken outside the lease area.
28. The project Authorities shall maintain a margin of 7.5 meters along the lease boundary except in case where common boundary working permission is obtained from the competent authority.
29. The project authorities shall also earmark at least 5 % of the total turnover of the project towards the corporate social responsibility and item-wise details along with time bound action plan shall be prepared and submitted to the Authority.
30. Haulage approach road should not be through village till the main road is reached.

31. The project authorities shall get the annual health checkup of quarry workers as well as people in the nearest vicinity of the quarry for respiratory diseases such as silicosis and maintain records. Appropriate care shall be taken for remedy in case of prevalence of such health disorders.
32. Clearance/NOC from the competent authority shall be obtained for transportation of water by tankers in order to avoid hardship to the competitive users
33. The project proponent shall strictly adhere to the norms and guidelines issued with regard to quarrying of sand in the patta land in the Karnataka Minor Mineral (Concession Rule).
34. Solid waste/hazardous waste generated in the mines/quarry needs to be addressed in accordance to the Solid Waste Management Rules, 2016 / Hazardous & Other Waste Management Rules, 2016
35. Ambient air quality monitoring stations as prescribed in the statute be established for monitoring of pollutants, namely PM<sub>10</sub>, PM<sub>2.5</sub>, SO<sub>2</sub> and NO<sub>x</sub>. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets in consultation with the State Pollution Control Board wherever applicable.
36. This Environmental Clearance is granted subject to obtaining prior clearance from Forestry and Wild Life angle including clearance from the Standing Committee of the National Board for Wildlife as applicable. Further this Environmental Clearance does not necessarily imply that Forestry and Wildlife Clearance shall be granted to the project and that the proposal for Forestry and Wildlife Clearance shall be considered by the respective Authorities on their merits and decision taken. The investment made in the project if any based on Environmental Clearance so granted in anticipation from the forestry and wild life angle shall be entirely at the cost and risk of the project proponent and the SEIAA-Karnataka shall not be responsible in this regard in any manner.
37. Regular monitoring of ground water level and quality shall be carried out in and around the mine/quarry lease area by establishing a network of existing wells and constructing new piezometers during the Quarrying operations. The monitoring of ground water levels shall be carried out four times a year i.e. pre-monsoon, monsoon, post-monsoon and winter. The ground water quality shall be monitored once a year, and the data thus collected shall be sent regularly to MoEF&CC/RO.
38. Monitoring of water quality upstream and downstream of water bodies shall be carried out once in six months and record of monitoring data shall be maintained and submitted to the Ministry of Environment, Forest and Climate Change/Regional Office
39. The noise level survey shall be carried out as per the prescribed guidelines to assess noise exposure of the workmen at vulnerable points in the mine premises, and report in this regard shall be submitted to the Ministry/RO on six-monthly basis.
40. The company / project proponent shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company / Project proponent shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
41. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection

measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report

42. Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.
43. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
44. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
45. The project authorities shall inform to the Regional Office of the MoEF&CC regarding commencement of Quarrying operations.
46. No further expansion or modifications in the project shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Karnataka.
47. The Project Proponent shall comply with provision contained in OM vide F.No. 22-65/2017-IA.III Dated 20th October 2020 , of the Ministry of Environment, Forest and Climate Change as applicable, regarding Corporate Environment Responsibility and shall execute the action plan of Providing solar power panels to GHPS school at Kuruvinakoppa Village, Rain water harvesting pits in GHPS school at Kuruvinakoppa Village, distribute nursery plants at Kuruvinakoppa Village & Strengthening of Approach Road and Health Camp in the GHPS school at Kuruvinakoppa Village, as submitted in Parivesh portal on 05.07.2024. Compliance in this regard shall be submitted to SEIAA while furnishing the Half Year Compliance reports.
48. The project authorities shall stabilize the river bank with waste materials like pebbles and planting with khus grass and suitable plant species.
49. The following procedure laid down in Appendix XII of the EIA Notification, 2006 (as amended vide Notification No. 5.0. 141 (E) dated 15th January 2016) for monitoring of sand mining or riverbed mining shall be followed:
  - i. The security feature of Transport Permit shall be as under:
    - a) Printed on Indian Banks' Association (IBA) approved Magnetic Ink Character Recognition (MICR) Code paper.
    - b) Unique Barcode.
    - c) Unique Quick Response (QR) code.
    - d) Fugitive Ink Background.
    - e) Invisible Ink Mark.
    - f) Void Pantograph.
    - g) Watermark.
  - ii. Requirement at Mine Lease Site:
    - a) Small Size Plot (Up to 5 hectare): Android Based Smart Phone.
    - (b) Large Size Plots (More than 5 hectare): CCTV camera, Personal Computer (PC), Internet Connection, Power Back up.
    - (c) Access control of mine lease site.
    - (d) Arrangement for weight or approximation of weight of mined out mineral on basis of volume of the trailer of vehicle used.

iii. Scanning of Transport Permit or Receipt and Uploading on Server:

- (a) Website: Scanning of receipt on mining site can be done through barcode scanner and computer using the software;
- (b) Android Application: Scanning on mining site can be done using Android Application using smart phone. It will require internet availability on SIM card;
- (c) SMS: Transport Permit or Receipt shall be uploaded on server even by sending SMS through mobile. Once Transport Permit or Receipt get uploaded, an unique invoice code gets generated with its validity period.

iv. Proposed working of the system:

The State Mining Department should print the Transport Permit or Receipt with security features enumerated at Paragraph 1 above and issue them to the mine lease holder through the District Collector. Once these Transport Permits or Receipts are issued, they would be uploaded on the server against that mine lease area. Each receipt should be preferably with pre-fixed quantity, so the total quantity gets determined for the receipts issued.

When the Transport Permit or Receipt barcode gets scanned and invoice is generated, that particular barcode gets used and its validity time is recorded on the server. So all the details of transporting of mined out material can be captured on the server and the Transport Permit or Receipt cannot be reused.

v. Checking On Route:

The staff deployed for the purpose of checking of vehicles carrying mined mineral should be in a position to check the validity of Transport Permit or Receipt by scanning them using website, Android Application and SMS.

vi. Breakdown of Vehicle:

In case the Vehicle breakdown, the validity of Transport Permit or Receipt shall be extended by sending SMS by driver in specific format to report breakdown of vehicle. The server will register this information and register the breakdown. The State can also establish a call centre, which can register breakdowns of such vehicles and extend the validity period. The subsequent restart of the vehicle also should be similarly reported to the server or call centre.

vii. Tracking of Vehicles:

The route of vehicle from source to destination can be tracked through the system using check points, RFID Tags, and GPS tracking.

viii. Alerts or Report Generation and Action Review:

The system will enable the authorities to develop periodic report on different parameters like daily lifting report, vehicle log or history, lifting against allocation, and total lifting. The system can be used to generate auto mails or SMS. This will enable the District Collector or District Magistrate to get all the relevant details and shall enable the authority to block the scanning facility of any site found to be indulged in irregularity. Whenever any authority intercepts any vehicle transporting illegal sand, it shall get registered on the server and shall be mandatory for the officer to fill in the report on action taken. Every intercepted vehicle shall be tracked.

50. The project proponent shall be abide by the guidelines/conditions specified in the sustainable sand mining guidelines 2016 and Enforcement and monitoring guidelines for sand mining 2020 issued by MoEF&CC.

**B. GENERAL CONDITIONS:**

1. No change in quarrying technology and scope of working should be made without prior approval of the SEIAA Karnataka.
2. No change in the calendar plan including excavation, quantum of mineral and waste should be made.

3. Digital processing of the entire lease area using remote sensing technique should be done regularly once in three years for monitoring land use pattern and report submitted to SEIAA Karnataka, Department of Environment and Ecology, Govt. of Karnataka and the APCCF, Regional Office, MoEF, Bangalore.
4. It shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the MoEF, Govt. of India, New Delhi.
5. Data on ambient air quality (PM<sub>10</sub>, PM<sub>2.5</sub>, SO<sub>2</sub>, NO<sub>x</sub>) should be regularly submitted to the SEIAA Karnataka and the Regional Office, MoEF, Bangalore and the State Pollution Control Board / Central Pollution Control Board once in six months.
6. Fugitive dust emission from all the sources should be controlled regularly. Water spray arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.
7. Measures should be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc should be provided with earplugs / muffs.
8. Waste water from the quarry should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th may 1993 and 31st December, 1993 or as amended from time to time. Oil and grease trap shall be installed before discharge of effluents.
9. Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
10. Occupational health surveillance program of the workers should be undertaken periodically i.e. once in 3 months to observe any contractions due to exposure to dust and take corrective measures, if needed. Quarterly report in this regard should be submitted to the Department of Environment and Ecology, Govt. of Karnataka and the Karnataka State Pollution Control Board and the Regional Office, MoEF, Bangalore.
11. The project proponent shall take all precautionary measures during quarrying operation for conservation and protection of endangered fauna spotted in the study area. Action plan for conservation of flora and fauna shall be prepared and implemented in consultation with the State Forest and Wildlife Department. The proponent shall contribute towards the cost of implementation of the plan and / or Regional Wildlife Management Plan for conservation of wild life. The amount so contributed shall be included in the project cost. A copy of the action plan may be submitted to the SEIAA, Department of Environment and Ecology, Govt. of Karnataka, and the Regional Office, MoEF, Bangalore within 3 months.
12. The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the SEIAA Karnataka, the Department of Environment and Ecology, Govt. of Karnataka, and Ecology, Government of Karnataka, and the Regional Office, MoEF, Bangalore.
13. The project authorities should inform the SEIAA Karnataka, Department of Environment and Ecology, Govt. of Karnataka, and the Regional Office, MoEF, Bangalore regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
14. The APCCF, Regional Office of MoEF, Bengaluru; the Department of Environment and Ecology, Govt. of Karnataka and the Karnataka State Pollution Control Board shall monitor compliance of the stipulated conditions. The project authorities should extend full co-operation to the Officer (S) of these offices by furnishing the requisite data / information / monitoring reports.
15. **Half Yearly Compliances Reports (HYCRs) on the Environmental Conditions stipulated in the Environmental Clearance (EC) letter shall be submitted strictly**

**through the dedicated module of PARIVESH 2.0 in the timely manner on or before 1<sup>st</sup> June and 1<sup>st</sup> December of Each calendar year as per MoEF&CC O M dated 14.06.2024. The HYCRs with its contents of a covering letter, compliance reports, and environmental monitoring data has to be in PDF format merged into a single document. The email should clearly mention the name of project, EC No. & date, period of submission and to be sent to the Regional Office of MOEF&CC by email only at email ID rosz.bng-mefcc@gov.in. Hard copy of HYCRs shall not be acceptable.**

16. A copy of the clearance letter will be marked to the concerned Panchayat. Local NGO, if any, from whom suggestion / representation has been received while processing the proposal.
17. The project proponent should display the conditions prominently at the entrance of the project on a big panel board for the information of the public.
18. The Karnataka State Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industry Centre and Collector's office/ Tehsildar's office for 30 days.
19. **The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at <http://environmentclearance.nic.in> website of the MoEF&CC. A copy of the same should be forwarded to the Department of Environment and Ecology, Government of Karnataka and the Regional Office, MoEF&CC, Bangalore.**
20. The Project Proponent shall provide a copy of the Environmental Clearance to the concerned Village Panchayat, Taluk Panchayat and Zilla Panchayat / Local municipal authorities.
21. This environmental clearance does not confer any right to the proponent on the land proposed for quarrying until and unless quarry lease and all other statutory clearance are obtained from the respective department/agencies.
22. Regular ambient air quality monitoring shall be carried out around each of the working areas and records maintained.
23. The critical parameters such as such as RSPM (Particulate matter with size less than 10micron i.e., PM10), NOx in the ambient air within the impact zone, shall be monitored periodically.
24. Vehicular emissions should be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in quarrying operations and in transportation of blocks, so that they do not cause either noise or air pollution.
25. Appropriate mitigation measures should be taken to prevent pollution of nearby water bodies in consultation with the State Pollution Control Board.
26. Baseline data on health profile of each of the workers shall be maintained.
27. PAs should get the health checkup done for the quarry workers on quarterly basis and submit report periodically.
28. The project authorities should undertake sample survey to generate data on pre-project community health status within a radius of 1 km from proposed quarry.
29. Plantation monitoring programme during post project period for ensuring survival and growth rate of plantation in reclaimed area.
30. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environmental (Protection) Act, 1986.

31. The SEIAA, Karnataka reserves the right to withdraw the environmental clearance subject to any change in the quarrying policy by the State Government as may be applicable to this project.
