**Subject:** Grant of prior Environmental Clearance (EC) to the proposed Mining Project under the provisions of EIA Notification 2006-regarding

**Sir/Madam,**

This is in reference to your application submitted to SEIAA vide proposal number SIA/CG/MIN/501326/2024 dated 16/10/2024 for grant of prior Environmental Clearance (EC) to the project under the provision of the EIA Notification 2006-and as amended thereof.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC24C0108CG5688236N
(ii) File No.	OL/RE_EC/MIN/SURGUJA/3778
(iii) Clearance Type	Mining EC Under 5 Ha
(iv) Category	B2
(v) Project/Activity Included Schedule No.	1(a) Mining of minerals
(vii) Name of Project	Suresh Kumar Mittal
(ix) Location of Project (District, State)	SURGUJA, CHHATTISGARH
(x) Issuing Authority	SEIAA
(xii) Applicability of General Conditions	No

3. Environmental Clearance is for mining of Lime stone capacity – 24,039 TPA, Kharsa No. 398/1 & 398/2, area 1.95 Ha. at Village - Karra, Tehsil - Lundra, District – Surguja (C.G.)

4. In view of the particulars given in the Para 1 above, the project proposal interalia including Form-2(Part A, B and C)/ EIA & EMP Reports were submitted to the SEIAA for an appraisal by the SEIAA under the provision of EIA notification 2006 and its subsequent amendments.

5. The above-mentioned proposal has been considered by SEIAA in the meeting held on 12/03/2025. The minutes of the meeting and all the project documents are available on PARIVESH portal which can be accessed from the PARIVESH portal by scanning the QR Code above. Brief description of the project is as under: [#Brief description on nature of the project activity-Auto fetch Para 1.1 Part B Form 1#]
6. Details of the minerals to be mined along with production capacity and the brief on the salient features of the project as submitted by the project proponent in Form 1 (Part A and B) in the reports and as presented during [EAC/SEAC] are annexed to this EC as Annexure (1).
7. The [EAC/SEAC], in its meeting held on 12/03/2025, based on information submitted viz: Form 1 (Part A, B and C), EIA/EMP report etc & clarifications provided by the project proponent and after detailed deliberations on all technical aspects and public hearing issues and compliance thereto furnished by the Project Proponent, recommended the proposal for grant of Environment Clearance under the provision of EIA Notification, 2006 and as amended thereof subject to stipulation of Specific and Standard EC conditions as detailed in the point below.
8. The SEIAA has examined the proposal in accordance with the provisions contained in the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and based on the recommendations of the SEIAA hereby accords Environment Clearance for the instant proposal to M/s. SURESH MITTAL under the provisions of EIA Notification, 2006 and as amended thereof subject to compliance of the Specific and Standard EC conditions as given in Annexure (2)
9. The Ministry reserves the right to stipulate additional conditions, if found necessary.
10. The Environmental Clearance to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.
11. The PP is under obligation to implement commitments made in the Environment Management Plan, which forms part of this EC.
12. General Instructions:
  1. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of SEIAA website where it is displayed.
  2. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn must display the same for 30 days from the date of receipt.
  3. The project proponent shall have a well laid down environmental policy duly approved by the Board of Directors (in case of Company) or competent authority, duly prescribing standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions.
  4. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the project proponent (during construction phase) and authorized entity mandated with compliance of conditions (during operational phase) shall be prepared. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Six monthly progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report.
  5. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
  6. The Regional Office of this SEIAA shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.

7. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

13. This issue with an approval of the Competent Authority.

7	Regional Officer, Regional Office, Chhattisgarh Environment Protection Board, Ambikapur for information and necessary action.

**Annexure 1**

**Specific EC Conditions for (Mining Of Minerals)**

**1. Specific Condition**

S. No	EC Conditions
1.1	1. PP shall submit the compliance report for plantation over entire safety zone area along with geotag photography and drone survey photography within one year of grant of EC date.

**Standard EC Conditions for (Mining of minerals)**

**1. Statutory Compliance**

S. No	EC Conditions
1.1	<p><b>Additional conditions:</b></p> <ol style="list-style-type: none"> <li>The boundary pillars (with co-ordinates) shall be erected as per the prescribed guidelines around the applied mine.</li> <li>Project Proponent shall ensure to comply the participation of the mine owners in the CEMP.</li> <li>The species of safety zone plantation should be healthy and fast growing with good canopy so serve as barrier for propagation of dust and noise pollution from mines area.</li> </ol>

S. No	EC Conditions
	<ol style="list-style-type: none"> <li>4. Topsoil will be stacked over safety zone and plantation will be done. Rest Top soil will be preserved over non excavated unused part of lease area. Preserved top soil will be shifted for spraying over reclaimed land at progressive mine closure/ conceptual stage and PP shall ensure to conserve the top soil for reclamation of mine and for plantation.</li> <li>5. Dense plantation of trees (810 nos) around the 7.5 meter mine lease area (area restricted for excavation) and ensuring a 90 percent survival rate of the planted plants.</li> <li>6. Regular water sprinkling arrangements in the mine lease area and also in haul road to control the fugitive dust emissions.</li> <li>7. Employment provided to the local people under the Chhattisgarh Model Rehabilitation Policy.</li> <li>8. Project proponent shall ensure that any kind of contaminated water (if generated) shall not flow into the natural water source, pond, river, drain under any circumstances.</li> <li>9. There should be regular monitoring of the mining activities in the State to ensure effective compliance of stipulated EC conditions and of the provisions under the Minor Mineral Concessions Rules framed by the State Government.</li> <li>10. Project proponent shall ensure that mining operation shall be carried out in day time.</li> <li>11. No excavation work will be done in future around the mine area (area restricted for excavation).</li> <li>12. The pollution load due to transportation on the environment shall be effectively controlled and water sprinkling shall also be done regularly.</li> <li>13. Project proponent shall ensure that control blasting and this shall be done by DGMS authorized license holder.</li> <li>14. Project proponent shall ensure that the construction of boundary pillars as per Mineral Concession Rules, 1960 (as amended).</li> <li>15. The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded.</li> <li>16. Project proponent shall ensure at the time of closure of mine the whole pit will be reclaimed by overburden/ topsoil etc. and do native tree species plantation.</li> </ol>
1.2	<p><b>Statutory compliance:</b></p> <ol style="list-style-type: none"> <li>1. The Environmental clearance shall be subject to orders of Hon'ble Supreme Court of India, Hon'ble High Courts, NGT and any other Court of Law, from time to time, and as applicable to the project.</li> <li>2. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.</li> <li>3. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.</li> <li>4. The project proponent shall prepare a Site-Specific Conservation Plan &amp; Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the</li> </ol>

S. No	EC Conditions
	<p>approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of schedule-I species in the study area).</p> <ol style="list-style-type: none"> <li>5. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention &amp; Control of Pollution) Act, 1981 and the Water (Prevention &amp; Control of Pollution) Act, 1974 from the concerned State pollution Control Board/ Committee.</li> <li>6. The project proponent shall obtain the necessary permission from the Central Ground Water Authority or competent authority for usage of water.</li> <li>7. Solid/hazardous waste generated in the mines needs to be addressed in accordance to the Solid Waste Management Rules, 2016/Hazardous &amp; Other Waste Management Rules, 2016.</li> <li>8. Permission of power supply to be taken from the concerned authority for meeting power demand of the project site.</li> <li>9. The maximum production or peak production at any given time shall not exceed the limit as prescribed in the EC.</li> <li>10. The Project Proponent shall inform the MoEF&amp;CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.</li> <li>11. The quantity of the mineral mine shall be regulated by the quantity allowed in the approved mining plan for various years but it shall not exceed the quantity granted under the EC</li> <li>12. Validity of EC is as per life of the mine mentioned in EC letter or 30 years as per EIA Notification, 2006 and its amendments therein.</li> </ol> <p><b>Air quality monitoring and mitigation measure:</b></p> <ol style="list-style-type: none"> <li>1. Ambient air quality monitoring shall be conducted once in a year in the core zone as well as in the buffer zone for monitoring of pollutants, namely particulates, SO<sub>2</sub> and NO<sub>x</sub>. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive receptors. The report shall be submitted to the SEIAA, C.G./ SEAC, C.G.</li> <li>2. The Ambient Air Quality monitoring in the core zone shall be carried out. Data on ambient air quality and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly reported to the Ministry/Regional Office and to the CPCB/SPCB.</li> <li>3. Transportation of minerals, to the extent if permitted by road, shall be carried out by covered trucks. Effective control measures such as regular water sprinkling etc., shall be carried out in critical areas prone to air pollution with higher level of particulate matter all through the transport roads, loading/unloading and transfer points. Fugitive dust emissions from all sources shall be controlled regularly. It shall be ensured that the ambient air quality parameters conform to the norms prescribed by the Central/State Pollution Control Board.</li> <li>4. Major approach roads shall be properly maintained.</li> <li>5. PP to install solar lights along the road used for transportation to avoid the accidents at night and also seek its maintenance.</li> </ol>

S. No	EC Conditions
	<p>6. The transportation of mineral shall be carried out as per the provisions and route proposed in the approved mining plan. Road passing through any village shall be avoided. In case, it is proposed to construct a 'bypass' road, it should be so constructed that the impact of sound, dust and accidents could be appropriately mitigated.</p> <p>7. Vehicular emissions shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied activities shall operate only after obtaining 'PUC' certificate from the authorized pollution testing centers.</p> <p>8. Water sprinkling arrangement shall be provided to reduce the impact of air pollution.</p> <p>9. Post environmental closure third party monitoring by reputed instituted in air quality, water, land &amp; soil etc shall be carried out and analyses with EMP measures at regular interval. A suitable recommendation in this regard, shall be furnished to IRO, MoEF&amp;CC for compliance.</p> <p><b>Water quality monitoring and mitigation measures:</b></p> <p>1. Regular monitoring of ground water level and quality shall be carried out in and around the mine lease area by establishing a network of existing wells and constructing new piezometers during the mining operations. The monitoring of ground water levels shall be carried out four times a year i.e. pre-monsoon, monsoon, post-monsoon and winter. The ground water quality shall be monitored once a year, and the data thus collected shall be sent regularly to MOEFCC/RO.</p> <p>2. If any river, ponds and lakes close to the mine lease area, monitoring of water quality upstream and downstream of river including ponds, lakes shall be carried out once in six months and record of monitoring data shall be maintained and submitted to the Ministry of Environment, Forest and Climate Change/Regional Office.</p> <p>3. Ground water, excluding mine water, shall not be used for mining operations. Rainwater harvesting shall be implemented for conservation and augmentation of ground water resources.</p> <p>4. The project proponent shall not alter major water channels around the site. Appropriate embankment shall be provided along the side of the river/nallah flowing near or adjacent to the mine. The embankment constructed along the river/nallah boundary shall be of suitable dimensions and critical patches shall be strengthened by stone pitching on the river front side, stabilized with plantation so as to withstand the peak water pressure preventing any chance of mine inundation.</p> <p>5. Garland drains (of suitable size, gradient and length) around the critical areas i.e. mine shaft and low lying areas, shall be designed keeping at least 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine sites. The sump capacity shall also provide adequate retention period to allow proper settling of silt material of the surface runoff The water pumped out from the mine, after siltation, shall be utilized for watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p> <p>6. The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz. watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.</p> <p>7. Adequate groundwater recharge measures shall be taken up for augmentation of ground water. The project authorities shall meet water requirement of nearby village(s) in case the</p>

S. No	EC Conditions
	<p>village wells go dry due to dewatering of mine.</p> <p>8. The surface drainage plan including surface water conservation plan for the area of influence affected by the said mining operations shall be prepared, considering the presence of any river/rivulet/pond/lake etc., with impact of mining activities on it, and implemented by the project proponent. The surface drainage plan and/or any diversion of natural water courses shall be as per the provisions of the approved Mining Plan/ EIA-EMP submitted to this Ministry and the same should be done with due approval of the concerned State/GoI Authority. The construction of embankment to prevent any danger against inrush of surface water into the mine should be as per the approved mining plan and as per the permission of DGMS.</p> <p>9. Domestic water shall be providing to the residents/villages which are coming under the zone of influence of the project due to ground water extraction by installing a RO plant.</p> <p><b>Noise and Vibration monitoring and prevention:</b></p> <p>1. Adequate measures shall be taken for control of noise levels as per Noise Pollution Rules, 2016 in the work environment. Workers engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with personal protective equipments (PPE) like ear plugs/muffs in conformity with the prescribed norms and guidelines in this regard. Adequate awareness programme for users to be conducted. Progress in usage of such accessories to be monitored.</p> <p>2. The noise level survey shall be carried out as per the prescribed guidelines to assess noise exposure of the workmen at vulnerable points in the mine premises, and report in this regard shall be submitted to the Ministry/RO on six-monthly basis.</p> <p><b>Mining Plan:</b></p> <p>1. Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate legislations made there-under as applicable.</p> <p>2. Mining shall be carried out as per the approved mining plan (including Mine Closure Plan) and the relevant circulars issued by Directorate General Mines Safety (DGMS).</p> <p>3. No mining shall be carried out in forest land without obtaining Forestry Clearance as per Forest (Conservation) Act, 1980 and also adhering to The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 read with provisions of Indian Forest Act, 1927.</p> <p>4. Efforts should be made to reduce energy and fuel consumption by conservation, efficiency improvements and use of renewable energy.</p> <p><b>Land Reclamation:</b></p> <p>1. Post-mining land be rendered usable for agricultural/forestry purposes and shall be handed over to the respective State Government, as specified in the Guidelines for Preparation of Mine Closure Plan.</p> <p>2. Regular monitoring of subsidence movement on the surface over and around the working areas and its impact on natural drainage pattern, water bodies, vegetation, structure, roads and surroundings shall be continued till movement ceases completely. In case of observation of any high rate of subsidence beyond the limit prescribed, appropriate effective mitigation measures shall be taken to avoid loss of life and materials. Cracks should be effectively</p>

S. No	EC Conditions																			
	<p>plugged in with ballast and clay soil/suitable material.</p> <p>3. A separate team for subsidence monitoring and surface mitigation measures shall be constituted and continuous monitoring &amp; implementation of mitigation measures be carried out.</p> <p>4. Thorough inspection of the mine lease area for any cracks developed at the surface due to mining activities below ground shall be carried out to prevent inrush of water in the mine.</p> <p>5. Native tree species shall be selected and planted over areas affected by subsidence.</p> <p>6. The project proponent shall make necessary alternative arrangements, if grazing land is involved in core zone, in consultation with the State government to provide alternate areas for livestock grazing, if any. In this context, the project proponent shall implement the directions of Hon'ble Supreme Court with regard to acquiring grazing land.</p> <p><b>Corporate Environment Responsibility:</b></p> <p>1. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental/ forest/ wildlife norms/ conditions.</p> <p>2. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.</p> <p>3. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.</p> <p>4. Self environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.</p> <table border="1" data-bbox="336 1429 1471 1803"> <thead> <tr> <th colspan="5">CER Details :</th> </tr> <tr> <th>Capital Investment (in Lakh Rupees)</th> <th>Percentage of Capital Investment to be Spent</th> <th>Amount Required for CER Activities (in Lakh Rupees)</th> <th>Amount Proposed &amp; Details for CER Activities (in Lakh Rupees)</th> <th>CER Fund Allocation (in Lakh Rupees)</th> </tr> </thead> <tbody> <tr> <td rowspan="3">25</td> <td rowspan="3">2%</td> <td rowspan="3">0.50</td> <td colspan="2">Following activities at Nearby Village - Karra</td> </tr> <tr> <td>Installation of Rain water Harvesting System</td> <td>0.54</td> </tr> <tr> <td>Total</td> <td>0.54</td> </tr> </tbody> </table> <p>Installation of Rainwater Harvesting System shall be done under the provisions of Corporate Environment Responsibility at Shashkiya Prathmik Shala, Village - Karra. The total amount of expenses in the five years will be Rs. 54,005. (Construction of circular recharge well 1 nos. cost - Rs. 30,000, Water intake drain - Rs. 9,780, Pipe, accessories, maintenance &amp; miscellaneous cost - Rs. 14,225). Approved Mining Plan	Date : 19/10/2020, Dy. Director, District- Sarguja	
500 meter	Date : 01/02/2024, Mining Officer, District-Surguja No. of mines – 28, Area – 30.706 Ha. Total no. of mines in cluster - 29, Area - 32.656 Ha. Applied lease is granted on 22.08.2013. The lease is granted before 09/09/2013 and by evoking MOEF notification dated S.O. 2269 (E) dated 01/07/2016 this case is not falling under cluster situation and the applied lease area is 1.95 hectare which is less than 5 hectare and therefore applied lease is classified under category B2 project.	
200 meter	Date : 01/02/2024 Restricted Area – No	
Lease deed SIA/CG/MIN/501326/2024	Name of Lease deed Holder – Mr. Suresh Kumar Mittal Date - 22/08/2013 to 21/08/2043 Validity Period – 30 Years	

<p>Forest Department NOC</p>	<p>Date : 07/06/2024          Issued by Divisional Forest Officer, Surguja Forest Division, Dist. - Am bikapur          Distance from:          Nearest Forest – more than 250 meter          National Park – more than 10 km          Wild life Sanctuary – more than 10 km</p>
<p>Nearest Habitation/Structure</p>	<p>Village – Karra 500 Meter          School - Mahuapara 1.84 km          Hospital – Bhafauli 14 km          National Highway – 9.1 km          PMGSY Road - 200 Meter          River- Gagar Nadi 1.5 km          Seasonal Nalla - 3.30 Km          Village Pond – 3.00 km          Canal - 3.45 km</p>
<p>Ecology/Biodiversity Area</p>	<p>No Inter-state border, national park, sanctuary, critically polluted area declared by the Central Pollution Control Board, ecologically sensitive area or declared biodiversity area located within its 5 km perimeter.</p>
<p>Mining Details</p>	<p>Mining Method - Opencast Semi-Mechanized          Drilling and Blasting – Yes          According to mining Plan          Reserves          Geological Reserves – 5,11,875 Tonne          Minable Reserves – 2,53,776.25 Tonne          Recoverable Reserves – 2,28,398.62 Tonne          Geological Reserves - 4,81,278.34 Tonne          Minable Reserves - 2,23,179.59Tonne          Recoverable Reserves - 2,00,861.625 Tonne          Proposed Depth – 11.50 Meter          Bench Height – 1.5 meter          Bench width – 2 meter          Life of Mine - 10.5 Years          Crusher – NA          Year Wise Proposed Production Detail –          1st Year – 24,039 Tonne          2nd Year – 24,039 Tonne          3rd Year – 24,039 Tonne          4th Year – 24,039 Tonne          5th Year – 24,039 Tonne          6th Year – 24,039 Tonne</p>
<p>Restricted Area for Mine (Mine Safety Area)</p>	<p>Area of 7.5 m wide safety zone - 4,085 Sqm          Excavated – Yes          Mentioned in Mining Plan – No          At present 595 Sqm, having a length of 79.33 meter &amp; width 7.5 meter of safety zone is excavated up to a depth of 3 meter.          A Restoration Plan is submitted by PP.          The excavated security boundary area will be backfilled with approximately 1,800 cubic meter of murum, overburden and waste stone forming a slope of 60 degrees. Along with this, 0.50 meter thick pitching will be done on the boundary slope using 130 cubic meter of stone to strengthen the boundary slope. In this way, the excavated lease area will be backfilled.</p>
<p>SIA/CG/MIN/501326/2024          Non mining zone</p>	<p>No</p>

<p>Top Soil / Over Burden Management Plan</p>	<p>Depth - 1 Meter (0.25 Top Soil + 0.75 Over Burden)  Quantity –  Top Soil 3,854 Cum &amp; Over burden 11,561 Cum  Management detail - 1420.00 cum top soil will be stacked over 4.50 m wide outer part of 539.66 m long mine safety zone (mine boundary) with maximum height of 1 meter and 28 degree of slope and plantation will be done.  Rest of 2,434.00 cum of top soil will be preserved across nearby land owned and controlled by the lease holder. B-I, P-II and consent is submitted.  Total 11,561 cum of overburden generated from the mine area. Overburden will be used for development and maintenance of ramp of mine &amp; haul road within lease area. Overburden will be used for development of bund around the lease area. Overburden will also be dumped over intact part of lease area and be utilized for land reclamation during progressive mine closure.</p>
<p>Water Requirement</p>	<p>Quantity - 7.0 KLD  Source – Bore well  NOC from the concerned Department / Branch – CGWA</p>
<p>Plantation Work</p>	<p>Plantation of trees around 7.5 meters of lease area – 810 Nos.  Current Plantation – 390 Nos.  Proposed Plantation – 420 Nos.  Total amount proposed for plantation and 5 year maintenance Rs. 16,85,250 /-</p>
<p>CEMP</p>	<p>Proportionate budget under common EMP of 4 applicant for 5 years for the proposed work – Rs. 23,21,700 /-  Participation of Project Proponent: Amount for 5 years for the proposed work – Rs. 1,77,000 /-</p>
<p>Category</p>	<p><b>B2</b>  The total area including the applied mine is 32.656 Ha.  Applied lease is granted on 16.10.2008. The lease is granted before 09/09/2013 and by evoking MOEF notification dated S.O. 2269 (E) dated 01/07/2016 this case is not falling under cluster situation and the applied lease area is 1.00 hectare which is less than 5 hectare and therefore applied lease is classified under category B2 project.</p>
<p>Affidavit related to the project</p>	<p>Submitted regarding:-  90% survival rate of plantation,  Top soil storage and preservation,  Completion certificate of proposed plantation under CER activities,  Water sprinkling arrangements for fugitive dust emission,  Contaminated water will not discharge into natural water sources,  For stone excavation, blasting will be done by DGMS authorized and registered blasting expert as per the parameters controlled by scientific method with low intensity.  Employment is given to the local people as per the rules of the State Government,  No court case pending relating to this project before any Court of Law in India,  No violation of Notification S.O. 804(E) dated 14/03/2017 issued by Ministry of Environment, Forest and Climate Change, Government of India.  The direction given by the Honorable Supreme Court on 02/08/2017 in common cause vs Union of India writ petition (C) 114 of 2014 will be followed.</p>

		<p>The direction given by the Honorable Supreme Court on 08/01/2020 in writ petition (S) Civil No.114 /2014 common cause vs. Union of India &amp; Ors will be followed. Demarcation will be done by boundary pillars as per Mineral Concession Rules, The directions given in the office memorandum issued on 28/04/2023 by the Ministry of Environment, Forest and Climate, Government of India, New Delhi will be followed.</p>		
Total Project Cost		Rs. 25.00 Lakhs		
<b>CER Details :</b>				
Capital Investment (in Lakh Rupees)	Percentage of Capital Investment to be Spent	Amount Required for CER Activities (in Lakh Rupees)	Amount Proposed & Details for CER Activities (in Lakh Rupees)	
			Particulars	CER Fund Allocation (in Lakh Rupees)
25	2%	0.50	Following activities at Nearby Village - Karra	
			Installation of Rain water Harvesting System	0.54
			<b>Total</b>	<b>0.54</b>
<p>Installation of Rainwater Harvesting System shall be done under the provisions of Corporate Environment Responsibility at Shashkiya Prathamik Shala, Village - Karra. The total amount of expenses in the five years will be Rs. 54,005. (Construction of circular recharge well 1 nos. cost - Rs. 30,000, Water intake drain - Rs. 9,780, Pipe, accessories, maintenance &amp; miscellaneous cost - Rs. 14,225). The consent of the headmaster of school has been submitted by the project proponent.</p>
