

State Environment Impact Assessment Authority (SEIAA), ODISHA

(Constituted as per the provision of EIA Notification 2006, as amended by the Ministry of Environment, Forest and Climate Change,
Government of India)

Date: 23/07/2026

Minutes of Meeting

MoM ID : EC/MOM/SEIAA/113248/7/2026
Agenda ID : EC/AGENDA/SEIAA/113248/7/2026
Meeting Title : Minutes of 309th Meeting State Environment Impact Assessment Authority meeting held from 21/07/2026 to 21/07/2026
Meeting Venue : Conference Hall of SEIAA, Odisha
Meeting Mode : Physical
Date & Time : 21/07/2026 (10:30 AM - 02:30 PM)

=====

1. Opening remarks

Dr. Sudarsan Panda, Chairman, SEIAA, Odisha extended a warm welcome to Shri K. S. Pradeep, Member Secretary, SEIAA, Odisha and Shri Gopal Prasad Roy, Member SEIAA Odisha and started the discussion on the proposals placed in the meeting

2. Confirmation of the minutes of previous meeting

3. Details of proposals considered by the committee

Index of Proposals

S. No.	Proposal Number	Project Details
1	SIA/OR/IND1/585461/2026	(i) Project Name : Transfer of Environmental Clearance for 12.5 MTPA Cement Plant at Angul, Odisha from Jindal Panther Cement Private Limited to Jindal Cement Industries Private Limited (ii) Proponent Name : JINDAL CEMENT INDUSTRIES PRIVATE LIMITED (iii) State : ODISHA (iv) Proposal for : Transfer of EC (v) Activity : Cement plants (3(b))
2	SIA/OR/IND2/585323/2026	(i) Project Name : Extension of validity of environmental clearance for production of Country Liquor w.r. to Bhabinipur O.S. Shop of Sri Ch. Kameshu. (ii) Proponent Name : CH. KAMESHU (iii) State : ODISHA (iv) Proposal for : Application for Validity Extension of EC- Form-6 (v) Activity : Distilleries (5(g))
3	SIA/OR/IND2/585705/2026	(i) Project Name : Extension of Validity for Mahua Flower Based Country Liquor Manufacturing Unit, M/s. Podamari main out still liquor Shop at Podamari, Dist-Ganjam of Smt.Rebati Sahu (ii) Proponent Name : REBATI SAHU (iii) State : ODISHA (iv) Proposal for : Application for Validity Extension of EC- Form-6 (v) Activity : Distilleries (5(g))
4	SIA/OR/IND2/585853/2026	(i) Project Name : Application for Extension of validity of EC for Production of 1.0 KLD Mahua Flower Based Out Still country Liquor manufacturing unit, M/s Dadhiama jhiguda main O.S Shop At/ Mouza- Butimajhi Simla, Tahasil- Kodinga, District- Nabarangpur in favour of the Licensee Sri Subash Chandra Agrawal. (ii) Proponent Name : SUBHASA AGRAWAL (iii) State : ODISHA (iv) Proposal for : Application for Validity Extension of EC- Form-6 (v) Activity : Distilleries (5(g))
5	SIA/OR/IND2/585962/2026	(i) Project Name : Proposal for Extension of validity of EC for Production of 2.064 KLD Mahua Flower Based Country Liquor Manufacturing Unit, Baradi (Tatabali) Main Out Still Liquor Shop, at village-Baradi (Tatabali), Tahasil- Sorada, Dist-Ganjam of Sri Rajendra Kumar Sahu (ii) Proponent Name : RAJENDRA SAHU (iii) State : ODISHA (iv) Proposal for : Application for Validity Extension of EC- Form-6 (v) Activity : Distilleries (5(g))
6	SIA/OR/INFRA2/504665/2024	(i) Project Name : Proposed two blocks of Basement+Podium+Stilt+24, Residential multistoried apartment building having total built up area 105711.39 sqm for office rs Housing co-operative society Ltd. at mouza – Darada, Pipili of District – Puri by M/s. Tirumala Infrastructure and Development Pvt. Ltd (ii) Proponent Name : M/s TIRUMALA INFRASTRUCTURE AND PRIVATE LIMITED (iii) State : ODISHA (iv) Proposal for : Fresh EC (v) Activity : Building / Construction (8(a))
7	SIA/OR/INFRA2/55	(i) Project Name : Environment Clearance of Proposed MIG Residential Apartment (

S. N o.	Proposal Number	Project Details
	7330/2025	B+S+14) in Mouza-Bidyadharpur, Tahasil-Baranga, Dist-Cuttack, Odisha for M/s wyam Infraa (ii) Proponent Name : SUDIPTO GHOSH (iii) State : ODISHA (iv) Proposal for : Fresh EC (v) Activity : Building / Construction (8(a))
8	SIA/OR/MIN/534428/2025	(i) Project Name : NEW PROPOSAL FOR FRESH EC OF GHAGRULI STONE QUARRY OVER AN AREA 4.303 HA OR 10.633 AC IN VILLAGE GHAGRUL BELPARA TAHASIL BALANGIR DISTRICT ODISHA (ii) Proponent Name : G D MINING PRIVATE LIMITED (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (New) (v) Activity : Mining of minerals (1(a))
9	SIA/OR/MIN/560207/2026	(i) Project Name : Application for transfer of EC of proposed Brahmani River Sand Quarry, Jatia over an area of 6.046 Ha or 14.94 Acre in Brahmani River At-Jatia, Tahasil- Parjang, Dist.- Dhenkanal in favor of Lessee Smt Minakshi Pradhan.. (ii) Proponent Name : MINAKSHI PRADHAN (iii) State : ODISHA (iv) Proposal for : Transfer of EC (v) Activity : Mining of minerals (1(a))
10	SIA/OR/MIN/562025/2025	(i) Project Name : Proposal for Fresh Environmental Clearance of Bargan Sand Bed Over an Area of 12.00 Acres or 4.856 Hectares in village Bargan Under Kalahandi Tahasil of Kalahandi District. (ii) Proponent Name : Manas Ranjan Panda (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (v) Activity : Mining of minerals (1(a))
11	SIA/OR/MIN/565831/2026	(i) Project Name : PROPOSAL FOR ENVIRONMENT CLEARANCE OF BALALANGA S TONE QUARRY-D(PLOT NO.414(P) ,KHATA NO.69) OVER AN AREA 11.90 ACRES OR 4.816 HA IN VILLAGE BALALANGA OF MANESWAR TAHASIL OF SAMBALPUR DISTRICT,ODISHA (ii) Proponent Name : subom mohapatra (iii) State : ODISHA (iv) Proposal for : Fresh EC (v) Activity : Mining of minerals (1(a))
12	SIA/OR/MIN/566799/2026	(i) Project Name : PROPOSAL FOR FRESH EC OF TIRTOL BRICK EARTH QUARRY OVER AN AREA OF 1.29 ACRES OR 0.522 HECTARES AT VILLAGE TIRTOL, TAHASIL-TIRTOL, DIST-JAGATSINGHPUR, ODISHA OF M/s. RUPA BRICK KILN (ii) Proponent Name : ANIL MOHAPATRA (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (v) Activity : Mining of minerals (1(a))
13	SIA/OR/MIN/566896/2026	(i) Project Name : PROPOSAL FOR FRESH EC OF JADATIRA BRICK EARTH QUARRY OVER AN AREA OF 1.19 ACRES OR 0.481 HECTARES AT VILLAGE-JADATIRA, TAHASIL-TIRTOL, DIST-JAGATSINGHPUR, ODISHA OF M/S. MAA K.B. BRICKS, PROP-SRI

S. N o.	Proposal Number	Project Details
		AJAY KUMAR SAHOO (ii) Proponent Name : AJAY SAHOO (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (v) Activity : Mining of minerals (1(a))
14	SIA/OR/MIN/56846/2026	(i) Project Name : Kurula Brick Earth Quarry-VI over an area of 1.280 acres or 0.518 hectares bearing Khata no.208 & 457, Plot no. 3510, 3512, 3517, 3518, 3519, 3520 & 3511 in Village Kurula, Tahasil Sheragada, District Ganjam, State Odisha. (ii) Proponent Name : K DAMODAR PATRA (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (v) Activity : Mining of minerals (1(a))
15	SIA/OR/MIN/57833/2026	(i) Project Name : PROPOSAL FOR FRESH EC OF MAKHANAMUNDA STONE QUARRY-II OVER AN AREA OF 5.755 ACRES OR 2.326 HECTARES HAVING KHATA NO-1 04/102, PLOT NO-844, 821/1554 & 821, AT VILLAGE- MAKHANAMUNDA, TAHASIL-PAIKMAL, DIST-BARGARH, ODISHA OF SRI RATNAKAR SAHOO (ii) Proponent Name : RATNAKARSAHOO (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (v) Activity : Mining of minerals (1(a))
16	SIA/OR/MIN/57898/2026	(i) Project Name : Proposal for Reconsideration for Re-application for Obtaining Environmental Clearance of Uttareswar Laterite Stone Quarry over 9.40Acres or 3.80 Hc in village Uttareswar under Begunia tahasil of Khordha district Odisha. (ii) Proponent Name : ANIL KUMAR SAHU (iii) State : ODISHA (iv) Proposal for : Mining EC Under 5 Ha (v) Activity : Mining of minerals (1(a))
17	SIA/OR/MIN/57957/2026	(i) Project Name : Proposal for Extension of Environmental Clearance of Turukbhata Sand Bed Over an Area of 10.00 Acres or 4.048 Hectares in Village Turukbhata Under Titilagarh Tahasil of Balangir District. (ii) Proponent Name : RAJAT PATRA (iii) State : ODISHA (iv) Proposal for : Application for Validity Extension of EC- Form-6 (v) Activity : Mining of minerals (1(a))
18	SIA/OR/MIN/58564/2026	(i) Project Name : Transfer of Environmental Clearance of TRB Iron ore mine located at Tantra, Raikela & Bandhal villages, District- Sundargarh, Odisha from Jindal Steel & Power Limited to Jindal Steel Limited (ii) Proponent Name : Jindal Steel Limited (iii) State : ODISHA (iv) Proposal for : Transfer of EC (v) Activity : Mining of minerals (1(a))
19	SIA/OR/RIV/57999/2026	(i) Project Name : Pipalapanka Dam Project (ii) Proponent Name : Superintending Engineer, Ganjam Investigation Division (Do WR.Odisha) (iii) State : ODISHA

S. N o.	Proposal Number	Project Details
		(iv) Proposal for : Fresh EC (v) Activity : River Valley/Irrigation projects (1(c))

3.6.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :27/12/2024

Deliberations of SEAC 1 :

Considering the information furnished and the presentation made by the consultant,

M/s Visiontek Consultancy Services Pvt. Ltd, Bhubaneswar along with the project proponent, the SEAC recommended the following:

A. The proponent may be asked to submit the following for further processing of EC application:

- a) The project proponent shall submit the supporting documents for road connectivity to the project area.
- b) The project proponent shall obtain the permission from concerned authority for drainage of excess treated sewage water and storm water to the nearby nallah. The project site should have unhindered access for connecting the storm water discharge point of the site to the nearest public drain.
- c) The project proponent shall adhere to the guidelines of CPCB for placement of DG stack and its height. Layout to be submitted.
- d) The project proponent shall obtain CGWA permission for drawl of groundwater.
- e) Traffic study report to be vetted by institute of repute.
- f) Submit the structural stability of the building. Since the project is located in cyclone prone area, the report shall cover all safety measures (including cyclone resistant infrastructure and plantation of cyclone resistant tress species etc.) related to cyclone, so that the proposed building can withstand cyclones.
- g) The project proponent shall increase the usage of solar energy from 2.8% to 5%. Details to be submitted.
- h) The project proponent shall submit the mRL of the groundwater table in rainy season and bottom mRL of recharge pits.
- i) Details of land gifted by PP for road.

2. The proposed site shall be visited by Sub-Committee of SEAC to verify the followings

- i) Environmental settings of the project site.
- ii) Verify if the site is a flood prone area.
- iii) Construction activity if any started at the site and extent of construction activity.
- iv) Road connectivity to the project site.
- v) The drainage network at the site along with plan of discharging excess treated sewage water and storm water to the nearest public drain.
- vi) Discharge point for discharge of treated water and distance of the discharge point from the project site.
- vii) Any other issues including local issues.

Date of SEAC 2 :08/05/2025

Deliberations of SEAC 2 :

Considering the information furnished and the presentation made by the consultant,

M/s Visiontek Consultancy Services Pvt. Ltd, Bhubaneswar along with the project proponent, the SEAC recommended for grant of Environmental Clearance valid for 10 years with stipulated conditions as per **Annexure – F** in addition to the following specific conditions.

- i) The Proponent before implementation of the project shall convert the land to Gharabari and shall take the ownership of the land if not already taken.
- ii) The Proponent shall obtain permission/NOC from Executive Engg. (PHD) (as per EIDP Plan) land / or from the appropriate authority for disposal of excess STP treated water to the nearest drain before further construction and without which the Proponent will not start construction work. Also, in case of the connecting drain passing through others land (Govt. or Private land), the Proponent shall obtain the permission and possession as the case may be.
- iii) NOC/Permission for discharge of treated water along with storm water to the nearest public drain to be obtained from the appropriate authority including passing the Govt. land. The PP shall try to explore ZLD.
- iv) Internal drainage plan with RWH/Re-charge Pits to be taken up based on requirement and with approval of the authority.
- v) Care to be taken in developing land scape to avoid flood situation.
- vi) The proponent shall use solar energy at least to the tune of 5% of total power requirement as proposed.
- vii) The proponent shall obtain permission from concerned Fire Safety Authority.
- viii) Trees located within the project area shall be transplanted to alongside the boundary green development area.
- ix) The proponent shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report.
- x) The project proponent shall maximise utilisation of treated water in flushing, plantations and ground washings etc. as per need to reduce water discharge to drain. This shall be verified in future compliance report.
- xi) The PP will not commence construction unless the drain lay out is finalized and permission to be taken from the authority to discharge excess treated water & storm water.
- xii) Before starting the construction project physical properties as well as engineering properties of the soil along with its bearing capacity should be undertaken and the report should be submitted.
- xiii) Revised Statutory Clearances to be obtained.
- xiv) All compliances submitted/ committed by PP(s) shall be strictly adhered to them in addition to all the conditions/ specific conditions of EC.
- xv) As the width is small, the PP needs to get permission from the authority for discharge of storm water and excess treated water of such volume generated out of the project into the Nala for considering.

Date of SEIAA 3 :04/06/2025

Deliberations of SEIAA 3 :

After detailed deliberation, the authority decided to seek clarification / documents on the following:-

1. The PP shall submit document showing the ownership of the land or registered agreement for construction activity with the land owner.

Date of SEIAA 4 :08/07/2025

Deliberations of SEIAA 4 :

After detailed deliberation, the authority decided to refer back the proposal along with the complaint petition received by SEIAA on 29.05.2025 with regards to ownership of land for development of the project. The SEAC is requested to verify the complaint petition and spot visit the site to ascertain the contain of the complaint petition and furnish a report.

Date of SEAC 5 :30/07/2025

Deliberations of SEAC 5 :

The SEAC decided to defer the proposal to the next meeting.

Date of SEAC 6 :17/09/2025

Deliberations of SEAC 6 :

After detailed discussion, the SEAC decided to take decision on the proposal after receipt of above information and documents from the project proponent:

- i) Total land authentication from the concerned Tahasildar regarding ownership of land. Encumbrance Certificate of all plots be submitted from sub register office.
- ii) Affidavit from project proponent that the land belongs to him and no dispute is there regarding ownership of land.

Date of SEAC 7 :05/05/2026

Deliberations of SEAC 7 :

SEAC has observed that the Applicant is not submitted Authentication of persons executing the agreement on behalf Officers Housing Co-Operative Ltd.

In view of above, SEAC decided to take decision on the proposal after receipt of above information and documents from the Project Proponent:

- a) Total land authentication from the concerned Tahasildar regarding ownership of land
- b) Document w.r.t authentication of persons executing the agreement on behalf Officers Housing Co-Operative Ltd.
- c) Affidavit from project proponent that the land belongs to him and no dispute is there regarding ownership of land.

The project proponent is requested to furnish all the above information/clarification and documents.

Date of SEAC 8 :22/06/2026

Deliberations of SEAC 8 :

It is observed by SEAC that substantial compliance has been made by the project proponent and hence SEAC recommends for consideration of grant of EC in favour of the project valid for 10 years with stipulated conditions as per Annexure - F in addition to the following specific conditions.

- i) The Proponent before implementation of the project shall convert the land to Gharabari and shall take the ownership of the land if not already taken.
- ii) The Proponent shall obtain permission/NOC from Executive Engg. (PHD) (as per EIDP Plan) land / or from the appropriate authority for disposal of excess STP treated water to the nearest drain before further construction and without which the Proponent will not start construction work. Also, in case of the connecting drain passing through others land (Govt. or Private land), the Proponent shall obtain the permission and possession as the case may be.
- iii) NOC/Permission for discharge of treated water along with storm water to the nearest public drain to be obtained from the appropriate authority including passing the Govt. land. The PP shall try to explore ZLD.
- iv) Internal drainage plan with RWH/Re-charge Pits to be taken up based on requirement and with approval of the authority.
- v) Care to be taken in developing land scape to avoid flood situation.
- vi) The proponent shall use solar energy at least to the tune of 5% of total power requirement as proposed.
- vii) The proponent shall obtain permission from concerned Fire Safety Authority.
- viii) Trees located within the project area shall be transplanted to alongside the boundary green development area.
- ix) The proponent shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report.
- x) The project proponent shall maximise utilisation of treated waste water in flushing, plantations and ground washings etc. as per need to reduce treated waste water discharge to drain. This shall be verified in future compliance report.
- xi) The PP will not commence construction unless the drain lay out is finalized and permission to be taken from the authority to discharge excess treated waste water & storm water.
- xii) Before starting the construction project physical properties as well as engineering properties of the soil along with its bearing capacity should be undertaken and the report should be submitted.
- xiii) All compliances submitted/ committed by PP(s) shall be strictly adhered to them in addition to all the conditions/ specific conditions of EC.

The PP needs to get permission from the authority for discharge of storm water and excess treated water of such volume generated out of the project into the Nala for considering.

Date of SEIAA 9 :07/07/2026

Deliberations of SEIAA 9 :

After detailed deliberation, the authority decided to seek clarification / document from the PP on the following: -

1. The PP has to submit a certificate from any reputed Govt. Institution certifying that the proposed structure is safe and stable under design as well as serviceable condition.
2. The PP has to upload the in-principle approval of building plan from BDA / BMC.

3.6.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to seek clarification / document from the PP on the following: -

1. The PP has not furnished full compliance report of ADS raised on 07.07.2026. Hence, the PP has to

3.6.4. Recommendation of SEIAA

Deferred for ADS

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

**Environment Clearance of Proposed MIG Residential Apartment (B+S+14) in Mo
uza-Bidyadharpur, Tahasil-Baranga, Dist-Cuttack, Odisha for M/s Swyam Infraa**

by SUDIPTO GHOSH located at CUTTACK, ODISHA

PROPOSAL FOR	Fresh EC
PROPOSAL NUMBER	SIA/OR/INFRA2/557330/2025
FILE NUMBER	557330/170-INFRA2/11-2025
SUBMISSION DATE	11/11/2025
ACTIVITY / SUB-ACTIVITY (SCHEDULE ITEM)	Building / Construction (8(a))

3.7. Agenda Item No 7:

3.7.1. Details of the proposal

Environment Clearance of Proposed MIG Residential Apartment (B+S+14) in Mouza-Bidyadharpur, Tahasi l-Baranga, Dist-Cuttack, Odisha for M/s Swyam Infraa by SUDIPTO GHOSH located at CUTTACK,ODISHA			
Proposal For		Fresh EC	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/INFRA2/557330/2025	557330/170-INFRA2/11-2025	11/11/2025	Building / Construction (8(a))

3.7.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :09/01/2026

Deliberations of SEAC 1 :

1. The committee examine the submissions, presentations and clarifications provided by the proponent. Considering the information / documents furnished by the proponent and presentation made by the consultant **M/s Centre for Envotech and Management Consultancy Pvt. Ltd. Bhubaneswar on dtd. 09.01.2026.**

The proponent may be asked to submit the following for further processing of EC application:

- i. The land area mentioned as 1.41 Acres, but submitted land document of 1.40 Acre. This needs clarification.
- ii. Submit all statutory clearances like Building Plan Approval, Height Clearance from Airport Authority, Structural stability certificate vetted from reputed institute like IIT/NIT, Traffic study report vetted from reputed institute, Permission for drawl of water, Fire recommendation certificate as mentioned in the presentation.
- iii. Status of permission for discharge of excess treated effluent from STP and storm water to nearby drain. Details of final discharge point and drainage connectivity to the discharge point and carrying capacity of that water body receiving the treated effluent.
- iv. Details of water table fluctuation study in the area.
- v. Structural stability of rooftop solar panels is ensured through cyclone-resistant designs, secure anchoring and compliance with applicable wind load standards.
- vi. Para 6 & 7 to be corrected w.r.t CRZ area.
- vii. Quantity of manure generation from organic waste convertor and its utilization in green belt.
- viii. Undertaking for management of inorganic solid wastes generated from the project.
- ix. Standard Operation Procedure (SOP) for operation & maintenance of sewage treatment plant (STP) by skilled technicians and regular analysis of effluent quality.
- x. In Green Belt trees like Neem, Baulo, Jamun and wide leaf trees/cyclone prone species shall be planted with proper spacing along the periphery of the building.
- xi. Permission from Competent Authority as Nandankanan Zoo is located within 5KM from the Project Site.
- xii. As it is a flood prone area details of internal drainage system for storm water to be provided.
- xiii. The use of solar water heaters may also be explored to enhance energy efficiency and reduce conventional energy consumption.

The project proponent is requested to furnish all the above information/clarification and documents within 10 days from the date of communication made.

Date of SEAC 2 :22/06/2026

Deliberations of SEAC 2 :

SEAC observed that there have been substantial compliances by the proponent and after due deliberation SEAC recommends for grant of EC valid for 10 years with stipulated conditions as per **Annexure - J** in addition to the following specific conditions.

- (i) The proponent shall submit the final approved plan by CMC within six months from the date of grant of EC.
- (ii) The proponent shall also submit the approval for EIDP from the concerned authority within six months from the date of issue of EC.
- (iii) The proponent shall obtain Permission from the concerned appropriate Authority for discharge of excess treated sewage water along with storm water to the nearest drain.
- (iv) Internal drainage plan with RWH/Re-charge Pits to be taken up based on requirement and with approval of the authority.
- (v) The proponent shall use solar energy at least to 5% of total power requirement.
- (vi) The proponent shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report.
- (vii) The PP will not commence construction unless the drain layout is finalized and permission given for the same by the authority to discharge excess treated water & storm water.

All compliances submitted/ committed by PP(s) shall be strictly adhered to them in addition to all the conditions/ specific conditions of EC.

Date of SEIAA 3 :07/07/2026

Deliberations of SEIAA 3 :

After detailed deliberation, the authority decided to seek clarification / document from the PP on the following: -

1. The PP has to submit the registered agreement with the land owner for development of the proposed project.
2. The PP has to upload a certificate from any reputed Govt. Institution specifically certifying that the proposed structure is **safe and stable** under design as well as serviceable condition.

3.7.3. Deliberations by the SEIAA in current meetings

After detailed deliberations in the matter, the Authority approved the **Environmental Clearance (EC)** of the project valid for a period of 10 years from the date of issue of EC with standard and specific condition as recommended by SEAC for a total built up area of 29,726.63 Sq.mt. subject to condition that the PP shall construct drain for the project at their own cost and expenses and will obtain clearance from private land owners as well as from Govt. Authority, as the case may be, in which drain will be constructed to nearest available disposal point within a period of two years.

3.7.4. Recommendation of SEIAA

Approved

3.7.5. Details of Environment Conditions

3.7.5.1. Specific

Specific Condition	
1.	(i) The proponent shall submit the final approved plan by CMC within six months from the date of grant of EC. (ii) The proponent shall also submit the approval for EIDP from the concerned authority within six months from the date of issue of EC. (iii) The proponent shall obtain Permission from the concerned appropriate Authority for discharge of excess treated sewage water along with storm water to the nearest drain. (iv) Internal drainage plan with RWH/Re-charge Pits to be taken up based on requirement and with approval of the authority. (v) The proponent shall use solar energy at least to 5% of total power requirement. (vi) The proponent shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report. (vii) The PP will not commence construction unless the drain layout is finalized and permission given for the same by the authority to discharge excess treated water & storm water. All compliances submitted/ committed by PP(s) shall be strictly adhered to them in addition to all the conditions/ specific conditions of EC.

3.7.5.2. Standard

8(a)	Building / Construction
Statutory compliance	
1.	The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
2.	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightening etc.
3.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.
4.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
5.	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.
6.	The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.

7.	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
8.	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.
9.	The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016, shall be followed.
10.	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.

Air quality monitoring and preservation

1.	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.
2.	A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.
3.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.
4.	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.
5.	Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3-meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.
6.	Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.
7.	Wet jet shall be provided for grinding and stone cutting.
8.	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.
9.	All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.
10.	The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.

11.	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.
12.	For indoor air quality the ventilation provisions as per National Building Code of India.
Water quality monitoring and preservation	
1.	The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.
2.	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.
3.	Total fresh water use shall not exceed the proposed requirement as provided in the project details.
4.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
5.	A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.
6.	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.
7.	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.
8.	Use of water saving devices/fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.
9.	Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.
10.	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
11.	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pits/storage tanks shall be provided for ground water recharging as per the CGWB norms.
12.	A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh

	water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.
13.	All recharge should be limited to shallow aquifer.
14.	No ground water shall be used during construction phase of the project.
15.	Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.
16.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
17.	Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.
18.	No sewage or untreated effluent water would be discharged through storm water drains.
19.	Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.
20.	Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
21.	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

Noise monitoring and prevention

1.	Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.
2.	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
3.	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

Energy Conservation measures

1.	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.
2.	Outdoor and common area lighting shall be LED.
3.	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.
4.	Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.
5.	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
6.	Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.
Waste Management	
1.	A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.
2.	Disposal of muck during construction phase shall not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
3.	Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
4.	Organic waste compost/Vermiculture pit/Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.
5.	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.
6.	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.
7.	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.
8.	Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.

9.	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.
10.	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.
Green Cover	
1.	No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).
2.	A minimum of 1 tree for every 80 sqm of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.
3.	Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.
4.	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.
Transport	
1.	A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria. a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic. b. Traffic calming measures. c. Proper design of entry and exit points. d. Parking norms as per local regulation.
2.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.
null	
1.	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.
Human health issues	

1.	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.
2.	For indoor air quality the ventilation provisions as per National Building Code of India.
3.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
4.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
5.	Occupational health surveillance of the workers shall be done on a regular basis.
6.	A First Aid Room shall be provided in the project both during construction and operations of the project.
Miscellaneous	
1.	The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.
2.	ii. environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
3.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
4.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
5.	The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental/forest/wildlife norms/conditions. The company shall have defined system of reporting infringements/deviation/violation of the environmental/forest/wildlife norms/conditions and/or shareholders/stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
6.	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
7.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported

	to the Ministry/Regional Office along with the Six Monthly Compliance Report
8.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
9.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
10.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
11.	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report and also that during their presentation to the Expert Appraisal Committee.
12.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).
13.	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
14.	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
15.	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
16.	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
17.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
18.	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

NEW PROPOSAL FOR FRESH EC OF GHAGRULI STONE QUARRY OVER AN AREA 4.303 HA OR 10.633 AC IN VILLAGE GHAGRUL BELPARA TAHASIL BALANGIR DISTRICT ODISHA

by **G D MINING PRIVATE LIMITED** located at **BALANGIR, ODISHA**

PROPOSAL FOR	Mining EC Under 5 Ha (New)
PROPOSAL NUMBER	SIA/OR/MIN/534428/2025
FILE NUMBER	534428/274-MINB2/10-2025
SUBMISSION DATE	14/10/2025
ACTIVITY / SUB-ACTIVITY (SCHEDULE ITEM)	Mining of minerals (1(a))

3.8. Agenda Item No 8:

3.8.1. Details of the proposal

NEW PROPOSAL FOR FRESH EC OF GHAGRULI STONE QUARRY OVER AN AREA 4.303 HA OR 10.633 AC I N VILLAGE GHAGRUL BELPARA TAHASIL BALANGIR DISTRICT ODISHA by G D MINING PRIVATE LIMITED l ocated at BALANGIR,ODISHA			
Proposal For		Mining EC Under 5 Ha (New)	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/MIN/534428/2025	534428/274-MINB2/10-2025	14/10/2025	Mining of minerals (1(a))

3.8.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :04/12/2025

Deliberations of SEAC 1 :

The SEAC decided to take decision on the proposal after receipt of following documents from PP and Mining Officer-

i) One road is going inside the lease area and other road is Public road which is at distance of 10m.

As blasting is involved, safety zone of 200 meter should be marked for these public roads.

ii) Old DSR of 2018 has been provided. Submit the valid approved DSR.

iii) SOP for blasting.

Date of SEAC 2 :13/07/2026

Deliberations of SEAC 2 :

The SEAC observed that the Project Proponent has not complied with the ADS raised by SEAC. The inner road present within lease area is a village road and the distance from mining site is less than 100meters Drilling and blasting is proposed in the mining of stone as mentioned in approved Mining Plan.

Hence, this proposal is not recommended as it is not coming under safe blasting zone criteria as per guidelines of issued in order dated 21.07.2020 in matter of O.A.No.304/2019 of Hon'ble National Green Tribunal, Principal Bench, New Delhi stipulates that no quarrying or mining is carried out within 100m (minimum distance criteria when Blasting is not involved) and within 200m (minimum distance criteria when Blasting is involved) from residential/public buildings etc.,

3.8.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to reject the EC **proposal** due to the following reasons:

1. The SEAC have not recommended the proposal.
2. The entire leased out mining area falls within the no mining zone of the existing public road.

3.8.4. Recommendation of SEIAA

Reject

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

Application for transfer of EC of proposed Brahmani River Sand Quarry, Jatia over an area of 6.046 Ha or 14.94 Acre in Brahmani River At-Jatia, Tahasil- Parjang, Dist.- Dhenkanal in favor of Lessee Smt Minakshi Pradhan..

by MINAKSHI PRADHAN located at DHENKANAL, ODISHA

PROPOSAL FOR	Transfer of EC
PROPOSAL NUMBER	SIA/OR/MIN/560207/2026
FILE NUMBER	58504/254-MINB1/07-2022
SUBMISSION DATE	19/07/2026
ACTIVITY / SUB-ACTIVITY (SCHEDULE ITEM)	Mining of minerals (1(a))

3.9. Agenda Item No 9:

3.9.1. Details of the proposal

Application for transfer of EC of proposed Brahmani River Sand Quarry, Jatia over an area of 6.046 Ha or 14.94 Acre in Brahmani River At-Jatia, Tahasil- Parjang, Dist.- Dhenkanal in favor of Lessee Smt Minakshi Pradhan.. by MINAKSHI PRADHAN located at DHENKANAL,ODISHA			
Proposal For		Transfer of EC	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/MIN/560207/2026	58504/254-MINB1/07-2022	19/07/2026	Mining of minerals (1(a))

3.9.2. Deliberations by the committee in previous meetings

N/A

3.9.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to reject the transfer of EC as the EC dated 03.12.2022 issued earlier has already been expired.

3.9.4. Recommendation of SEIAA

Reject

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

Proposal for Fresh Environmental Clearance of Bargan Sand Bed Over an Area of 12.00 Acres or 4.856 Hectares in village Bargan Under Kalahandi Tahasil of Kalahandi District.

by Manas Ranjan Panda located at KALAHANDI, ODISHA

PROPOSAL FOR	Mining EC Under 5 Ha
PROPOSAL NUMBER	SIA/OR/MIN/562025/2025
FILE NUMBER	562025/505-MINB2/12-2025
SUBMISSION DATE	17/12/2025
ACTIVITY / SUB-ACTIVITY (SCHEDULE ITEM)	Mining of minerals (1(a))

3.10. Agenda Item No 10:

3.10.1. Details of the proposal

Proposal for Fresh Environmental Clearance of Bargan Sand Bed Over an Area of 12.00 Acres or 4.856 Hectares in village Bargan Under Kalahandi Tahasil of Kalahandi District. by Manas Ranjan Panda located at K ALAHANDI, ODISHA			
Proposal For		Mining EC Under 5 Ha	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/MIN/562025/2025	562025/505-MINB2/12-2025	17/12/2025	Mining of minerals (1(a))

3.10.2. Deliberations by the committee in previous meetings

Date of SEAC 1 : 06/03/2026

Deliberations of SEAC 1 :

Since, it's an existing mine, and project proponent applied for enhancement in production from 1800cum to 5000cum annually.

The SEAC decided to take decision on the proposal after receipt of following information and documents from PP and Mining Officer-

- i) EC Copy and compliance report to EC conditions to be submitted.
- ii) Past Production details duly certified by concerned mining authority.
- iii) Replenishment Study report to be submitted.

Date of SEAC 2 : 13/07/2026

Deliberations of SEAC 2 :

The SEAC observed in kml file, that a major bridge is at a distance of about 320meters from the lease area. Hence, the sand extraction can only be allowed after leaving 1km of non-mining zone as safety zone from the major bridge as per the Sustainable Sand Mining Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining (EMGSM), 2020 issued by the MoEF & CC.

Hence, the SEAC decided not to recommend the proposal for consideration of Modification of EC.

3.10.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to reject the EC **proposal** due to the following reasons:

1. The SEAC have not recommended the proposal.

2. From the KML file, it is observed that a major bridge is at a distance of about 320meters from the lease area. Hence, the sand extraction can only be allowed after leaving 1km of non-mining zone as safety zone from the major bridge as per the Sustainable Sand Mining Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining (EMGSM), 2020 issued by the MoEF & CC.

3.10.4. Recommendation of SEIAA

Reject

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

PROPOSAL FOR ENVIRONMENT CLEARANCE OF BALALANGA STONE QUARRY-D(PLOT NO.414(P) ,KHATA NO.69) OVER AN AREA 11.90 ACRES OR 4.816 HA IN VILLAGE BALALANGA OF MANESWAR TAHASIL OF SAMBALPUR DISTRICT,ODISHA

by subom mohapatra located at SAMBALPUR, ODISHA

PROPOSAL FOR	Fresh EC
PROPOSAL NUMBER	SIA/OR/MIN/565831/2026
FILE NUMBER	565831/534-MINB2/01-2026
SUBMISSION DATE	30/01/2026
ACTIVITY / SUB-ACTIVITY (SCHEDULE ITEM)	Mining of minerals (1(a))

3.11. Agenda Item No 11:

3.11.1. Details of the proposal

PROPOSAL FOR ENVIRONMENT CLEARANCE OF BALALANGA STONE QUARRY-D(PLOT NO.414(P) ,KHAT A NO.69) OVER AN AREA 11.90 ACRES OR 4.816 HA IN VILLAGE BALALANGA OF MANESWAR TAHASIL OF SAMBALPUR DISTRICT,ODISHA by subom mohapatra located at SAMBALPUR,ODISHA			
Proposal For		Fresh EC	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/MIN/565831/2026	565831/534-MINB2/01-2026	30/01/2026	Mining of minerals (1(a))

3.11.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :16/04/2026 Deliberations of SEAC 1 : The SEAC decided to take decision on the proposal after receipt of following documents from PP and Mining Officer- i) Supporting Documents that Sri Subom Mohapatra is the rightful lessee of Balalanga Stone Quarry-D. ii) Each page of PFR & EMP to be authenticated by PP.

Date of SEAC 2 :13/07/2026
--

Deliberations of SEAC 2 :

It is observed that the ADS raised by SEAC have been duly complied by the Project Proponent (PP). The SEAC decided to recommend for grant EC co-terminous with lease period for 8056cum(max)/annum of stone extraction as per the approved mining plan with following additional conditions:

- i) Consent / NOC shall be obtained from the concerned authority if village road is to be used for transportation. The said road shall also be maintained by the lessee.
- ii) Plantation programme shall be completed and maintained in remaining years.
- iii) Depth of Mining as proposed shall not be beyond 6m from the ground level.
- iv) Mitigation measures for flying rock for safety shall be put in place.
- v) The Project Proponent shall carryout periodic health check-up of their employees and maintain records. Also ensure use of PPE by workers in crushing and handling sections of the stone quarry for ensuring that working personnel are not affected by silicosis.
- vi) The boundary area of the deposit as per the revised / updated DSR to be defined by geo coordinates based on DGPS survey superimposed on the cadastral map.
- vii) Garland drains, retaining wall and settling tank shall be constructed around dumps and quarry area to prevent washouts of slits during rainy season.
- viii) No explosives shall be stored without approval of competent authority and all the precautions for blasting shall be put in place. Minimum distance criteria from nearest habitation to be followed as per guidelines.
- ix) Worked out pit shall be fenced.
- x) The PP shall operate as per the present approved Mining Plan.
- xi) The Project Proponent shall follow the guidelines issued in order dated 21.07.2020 in matter of O.A.No.304/2019 of Hon'ble National Green Tribunal, Principal Bench, New Delhi stipulates that no quarrying or mining is carried out within 100m (minimum distance criteria when Blasting is not involved) and within 200m (minimum distance criteria when Blasting is involved) from residential/public buildings etc.,

3.11.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority approved the EC with standard & specific conditions as recommended by SEAC for a maximum quantity of production limited to 8056 cum/annum valid up to 28.07.2027 (i.e. expiry of mining plan) from the date of issue of this letter and the method of mining shall be as per the approved Mining Plan with the following additional conditions.

1. No Mining zone within 200 meters of existing canal.
2. Further, extension of EC shall be considered on submission of EC Compliance report duly authenticated by the Mining Officer and submitted in the dedicated module for six monthly compliance report in the Parivesh Portal, implementation of EMP, and plantation.

3.11.4. Recommendation of SEIAA

3.11.5. Details of Environment Conditions

3.11.5.1. Specific

Specific Conditions	
1.	.

3.11.5.2. Standard

1(a)	Mining of minerals
Statutory compliance	
1.	This Environmental Clearance (EC) is subject to orders/ judgment of Honble Supreme Court of India, Honble High Court, Honble NGT and any other Court of Law, Common Cause Conditions as may be applicable.
null	
1.	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
2.	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
Statutory compliance	
1.	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
2.	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
3.	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.

4.	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.
5.	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
6.	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.
7.	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area."

Air quality monitoring and preservation

1.	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board.
2.	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.

Water quality monitoring and preservation

1.	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.
2.	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.

3.	Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
----	--

Water quality monitoring and preservation

1.	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
2.	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.
3.	The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
4.	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J- 20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.

Noise and vibration monitoring and prevention

1.	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
2.	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health

	aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.
Noise and vibration monitoring and prevention	
1.	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
Mining plan	
1.	The Project Proponent shall adhere to approved mining plan, inter alia, including, total excavation (quantum of mineral, waste, over burden, inter burden and top soil etc.); mining technology; lease area; scope of working (method of mining, overburden & dump management, O.B& dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life; etc.).
Mining plan	
1.	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.
Land reclamation	
1.	The Overburden (O.B.), waste and topsoil generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB / waste dumps / topsoil dump like height, width and angle of slope shall be governed as per the approved Mining Plan and the guidelines/circulars issued by D.G.M.S. The topsoil shall be used for land reclamation and plantation.
2.	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.
Land reclamation	
1.	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
2.	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be

	utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.
Transportation	
1.	No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers. [If applicable in case of road transport].
Transportation	
1.	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.
Green Belt	
1.	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.
Public hearing and human health issues	
1.	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
Corporate Environment Responsibility (CER)	
1.	The Project Proponent shall submit the time- bound action plan to the concerned regional office of the Ministry within 6 months from the date of issuance of environmental clearance for undertaking the activities committed during public consultation by the project proponent and as discussed by the EAC, in terms of the provisions of the MoEF&CC Office Memorandum No.22-65/2017-IA.III dated 30

	September, 2020. The action plan shall be implemented within three years of commencement of the project.
Miscellaneous	
1.	Concealing factual data failure to comply with any or submission of false/ fabricated data and of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
2.	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/High Court and any other Court of Law relating to the subject matter.
3.	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
4.	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
5.	The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
Miscellaneous	
1.	A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEF&CC.
2.	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
3.	The concerned Regional Office of the MoEF&CC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF&CC officer(s) by furnishing the requisite data / information / monitoring reports.
4.	In pursuant to Ministrys O.M No 22-34/2018-IA.III dated 16.01.2020 to comply with the direction made by Honble Supreme Court on 8.01.2020 in W.P. (Civil) No 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake regrassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
5.	The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.

The SEAC observed that validity of approved mining plan has been expired. **Hence, the SEAC decided not to recommend the proposal.**

Date of SEIAA 2 :28/04/2026

Deliberations of SEIAA 2 :

After detailed deliberation, the authority decided to seek information / document from the PP on the following:-

1. The PP has to submit approved mining plan beyond 05.02.2026.

3.13.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority approved the EC with standard & specific conditions as recommended by SEAC for a maximum quantity of production limited to 1178 cum/annum with maximum depth of mining to be 2.0 meters valid up to a lease period of five years from the date of issue of this EC with the following additional specific conditions.

- The method of mining shall be as per the approved Mining Plan.
- The PP shall upload six monthly compliance report in the dedicated module in the Parivesh Portal.

3.13.4. Recommendation of SEIAA

Approved

3.13.5. Details of Environment Conditions

3.13.5.1. Specific

Specific Conditions	
1.	.

3.13.5.2. Standard

1(a)	Mining of minerals
Statutory compliance	
1.	This Environmental Clearance (EC) is subject to orders/ judgment of Honble Supreme Court of India, Honble High Court, Honble NGT and any other Court of Law, Common Cause Conditions as may be applicable.
null	
1.	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
2.	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
Statutory compliance	
1.	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
2.	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
3.	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.

4.	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.
5.	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
6.	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.
7.	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area."

Air quality monitoring and preservation

1.	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board.
2.	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.

Water quality monitoring and preservation

1.	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.
2.	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.

3.	Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
----	--

Water quality monitoring and preservation

1.	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
2.	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.
3.	The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
4.	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J- 20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.

Noise and vibration monitoring and prevention

1.	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
2.	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health

	aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.
Noise and vibration monitoring and prevention	
1.	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
Mining plan	
1.	The Project Proponent shall adhere to approved mining plan, inter alia, including, total excavation (quantum of mineral, waste, over burden, inter burden and top soil etc.); mining technology; lease area; scope of working (method of mining, overburden & dump management, O.B& dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life; etc.).
Mining plan	
1.	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.
Land reclamation	
1.	The Overburden (O.B.), waste and topsoil generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB / waste dumps / topsoil dump like height, width and angle of slope shall be governed as per the approved Mining Plan and the guidelines/circulars issued by D.G.M.S. The topsoil shall be used for land reclamation and plantation.
2.	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.
Land reclamation	
1.	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
2.	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be

	utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.
Transportation	
1.	No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers. [If applicable in case of road transport].
Transportation	
1.	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.
Green Belt	
1.	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.
Public hearing and human health issues	
1.	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
Corporate Environment Responsibility (CER)	
1.	The Project Proponent shall submit the time- bound action plan to the concerned regional office of the Ministry within 6 months from the date of issuance of environmental clearance for undertaking the activities committed during public consultation by the project proponent and as discussed by the EAC, in terms of the provisions of the MoEF&CC Office Memorandum No.22-65/2017-IA.III dated 30

	September, 2020. The action plan shall be implemented within three years of commencement of the project.
Miscellaneous	
1.	Concealing factual data failure to comply with any or submission of false/ fabricated data and of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
2.	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/High Court and any other Court of Law relating to the subject matter.
3.	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
4.	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
5.	The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
Miscellaneous	
1.	A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEF&CC.
2.	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
3.	The concerned Regional Office of the MoEF&CC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF&CC officer(s) by furnishing the requisite data / information / monitoring reports.
4.	In pursuant to Ministry's O.M No 22-34/2018-IA.III dated 16.01.2020 to comply with the direction made by Honble Supreme Court on 8.01.2020 in W.P. (Civil) No 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake regrassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
5.	The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.

DAY 1 • 21/07/2026

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

Kurula Brick Earth Quarry-VI over an area of 1.280 acres or 0.518 hectares bearing Khata no.208 & 457, Plot no. 3510, 3512, 3517, 3518, 3519, 3520 & 3511 in Village Kurula, Tahasil Sheragada, District Ganjam, State Odisha.

by K DAMODAR PATRA located at GANJAM, ODISHA

PROPOSAL FOR	Mining EC Under 5 Ha
PROPOSAL NUMBER	SIA/OR/MIN/568461/2026
FILE NUMBER	568461/547-MINB2/02-2026
SUBMISSION DATE	09/02/2026
ACTIVITY / SUB-ACTIVITY (SCHEDULE ITEM)	Mining of minerals (1(a))

3.14. Agenda Item No 14:

3.14.1. Details of the proposal

Kurula Brick Earth Quarry-VI over an area of 1.280 acres or 0.518 hectares bearing Khata no.208 & 457, P lot no. 3510, 3512, 3517, 3518, 3519, 3520 & 3511 in Village Kurula, Tahasil Sheragada, District Ganjam, State Odisha. by K DAMODAR PATRA located at GANJAM,ODISHA			
Proposal For		Mining EC Under 5 Ha	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/MIN/568461/2026	568461/547-MINB2/02-2026	09/02/2026	Mining of minerals (1(a))

3.14.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :16/04/2026

Deliberations of SEAC 1 :

The SEAC decided to take decision on the proposal after receipt of following documents from PP and Mining Officer-

- i) Cluster EMP to be signed by all lessee of Kurula Brick Earth Quarry I,II,III,IV,V.
- ii) The land is not in name of Sri K Damodar Patra. Supporting Documents that applicant is the rightful lessee of M/s Kurula Brick Earth Quarry-VI.

Date of SEAC 2 :13/07/2026

Deliberations of SEAC 2 :

It is observed that the ADS raised by SEAC have been duly complied by the Project Proponent (PP). The SEAC decided to recommend the proposal for grant of EC for annual extraction of 906cum brick earth valid from the date of EC accorded upto the lease period with following additional conditions.

- i) Consent / NOC shall be obtained from the concerned authority, if village road is to be used for transportation. The said road shall also be maintained by the lessee.
- ii) The boundary area of the deposit as per the updated DSR defined by geo-coordinates based on DGPS survey shall be superimposed on the cadastral map.
- iii) Plantation shall be completed within first two years and to be maintained in remaining years.
- iv) Depth of mining as proposed shall not be beyond 2m from the ground level as per approved mining plan.
- v) Worked out pit shall be surrounded by barbed wire fencing.
- vi) Construction of garland drains, retaining wall and settling tank shall be provided around the dump area and quarry area to prevent erosion during rainy season and to collect silt generated during the mining activity.
- vii) Reclamation of Brick earth quarry shall be carried out through aqua-forestry system to prevent soil erosion and maintain fertility of the soil.
- viii) Pisciculture shall be carried out with species like Catla, Rohu, Mrigal and growing perennial trees (e.g. coconut, Agasti, Gliricidia upicup etc.) in the dug out pits.

3.14.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority approved the EC with standard and specific conditions as recommended by SEAC for a maximum quantity of production limited to 906 cum/annum with maximum depth of mining to be 2.0 meters valid up to a lease period of five years from the date of issue of this EC with the following additional specific conditions.

- The method of mining shall be as per the approved Mining Plan.
- The PP shall upload six monthly compliance report in the dedicated module in the Parivesh Portal.

3.14.4. Recommendation of SEIAA

Approved

3.14.5. Details of Environment Conditions

3.14.5.1. Specific

N/A

3.14.5.2. Standard

1(a)	Mining of minerals
Statutory compliance	
1.	This Environmental Clearance (EC) is subject to orders/ judgment of Honble Supreme Court of India, Honble High Court, Honble NGT and any other Court of Law, Common Cause Conditions as may be applicable.
null	
1.	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
2.	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.
Statutory compliance	
1.	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
2.	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
3.	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.
4.	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in

	at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.
5.	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.
6.	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.
7.	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area."

Air quality monitoring and preservation

1.	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board.
2.	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.

Water quality monitoring and preservation

1.	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.
2.	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.
3.	Industrial waste water (workshop and waste water from the mine) should be properly collected and

	treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.
Water quality monitoring and preservation	
1.	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
2.	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.
3.	The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.
4.	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J- 20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.
Noise and vibration monitoring and prevention	
1.	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
2.	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are

	working without personal protective equipment.
Noise and vibration monitoring and prevention	
1.	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
Mining plan	
1.	The Project Proponent shall adhere to approved mining plan, inter alia, including, total excavation (quantum of mineral, waste, over burden, inter burden and top soil etc.); mining technology; lease area; scope of working (method of mining, overburden & dump management, O.B& dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life; etc.).
Mining plan	
1.	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.
Land reclamation	
1.	The Overburden (O.B.), waste and topsoil generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB / waste dumps / topsoil dump like height, width and angle of slope shall be governed as per the approved Mining Plan and the guidelines/circulars issued by D.G.M.S. The topsoil shall be used for land reclamation and plantation.
2.	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.
Land reclamation	
1.	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.
2.	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/

	sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.
Transportation	
1.	No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers. [If applicable in case of road transport].
Transportation	
1.	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.
Green Belt	
1.	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.
Public hearing and human health issues	
1.	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.
Corporate Environment Responsibility (CER)	
1.	The Project Proponent shall submit the time- bound action plan to the concerned regional office of the Ministry within 6 months from the date of issuance of environmental clearance for undertaking the activities committed during public consultation by the project proponent and as discussed by the EAC, in terms of the provisions of the MoEF&CC Office Memorandum No.22-65/2017-IA.III dated 30 September, 2020. The action plan shall be implemented within three years of commencement of the

	project.
Miscellaneous	
1.	Concealing factual data failure to comply with any or submission of false/ fabricated data and of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
2.	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/High Court and any other Court of Law relating to the subject matter.
3.	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
4.	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
5.	The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
Miscellaneous	
1.	A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEF&CC.
2.	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
3.	The concerned Regional Office of the MoEF&CC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEF&CC officer(s) by furnishing the requisite data / information / monitoring reports.
4.	In pursuant to Ministrys O.M No 22-34/2018-IA.III dated 16.01.2020 to comply with the direction made by Honble Supreme Court on 8.01.2020 in W.P. (Civil) No 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake regrassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.
5.	The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.

3.15.2. Deliberations by the committee in previous meetings

Date of SEAC 1 : 23/06/2026

Deliberations of SEAC 1 :

SEAC decided not to recommend the proposal for grant of EC due to following reason:

i) SEAC observed in kml file that, the distance of village road from proposed quarry is 130meters and blasting has been proposed for stone mining in approved mining plan.

As per the guidelines issued in order dated 21.07.2020 in matter of O.A.No.304/2019 of Hon'ble National Green Tribunal, Principal Bench, New Delhi stipulates that no quarrying or mining be carried out within 100m (minimum distance criteria when Blasting is not involved) and within 200m (minimum distance criteria when Blasting is involved) from residential/public buildings etc..

Date of SEIAA 2 : 03/07/2026

Deliberations of SEIAA 2 :

After detailed deliberation, the authority decided to seek clarification / document from the PP on the following: -

1. The PP has to upload the LOI (Form-F) in his favour.

3.15.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to seek clarification / document from the PP on the following: -

1. The PP has to submit registered agreement with the land owner for stone mining.

3.15.4. Recommendation of SEIAA

AGENDA NUMBER

EC/AGENDA/SEIAA/113248/7/2026

Proposal for Reconsideration for Re-application for Obtaining Environmental Clearance of Uttareswar Laterite Stone Quarry over 9.40Acres or 3.80Hc in village Uttareswar under Begunia tahasil of Khordha district Odisha.

by ANIL KUMAR SAHU located at KHORDHA, ODISHA

3.16.1. Details of the proposal

Proposal for Reconsideration for Re-application for Obtaining Environmental Clearance of Uttareswar Lat erite Stone Quarry over 9.40Acres or 3.80Hc in village Uttareswar under Begunia tahasil of Khordha distri ct Odisha. by ANIL KUMAR SAHU located at KHORDHA,ODISHA			
Proposal For		Mining EC Under 5 Ha	
Proposal Number	File Number	Submission Date	Activity (Schedule Item)
SIA/OR/MIN/578981/2026	578981/618-MINB2/05-2026	14/05/2026	Mining of minerals (1(a))

3.16.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :24/06/2026

Deliberations of SEAC 1 :

SEAC decided to take decision on the proposal after receipt of following information and documents from Mining Officer and PP-

i) In the Maps of Mining Plan submitted, there is no clarity in showing 50meters of non-mining zone is left from the nearest habitation area as mentioned in ADS of PP. Moreover, there is no distinct colour code for marking different year wise production details.

Hence, revised Modified Mining plan may be submitted in further consideration of this proposal.

Date of SEAC 2 :13/07/2026

Deliberations of SEAC 2 :

The SEAC observed in kml file, that the distance of nearest habitation area from the lease area is less than 100meters. In In the Mining Plan, the maps clearly show the 50-meter non-mining zone maintained from the nearest habitation area for which the proposal cannot be considered.

Hence, this proposal is not recommended, as it is not coming under safe blasting zone criteria as per guidelines of issued in order dated 21.07.2020 in matter of O.A.No.304/2019 of Hon'ble National Green Tribunal, Principal Bench, New Delhi stipulates that no quarrying or mining is carried out within 100m (minimum distance criteria when Blasting is not involved) and within 200m (minimum distance criteria when Blasting is involved) from residential/public buildings etc.,

3.16.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to reject the EC **proposal for** the following reasons:

1. The SEAC have not recommended the proposal.

2. About 80% of mining lease area falls within no mining zone of existing public road and nearby habitation.

3.16.4. Recommendation of SEIAA

Reject

3.17.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :20/06/2026

Deliberations of SEAC 1 :

The SEAC decided to recommend the proposal for consideration of Modification of EC subject to submission of valid approved Mining Plan.

The recommended quantity for sand extraction be 2400cum/annum for current year as per ARRS report or as per the quantity of sand approved in valid modified mining plan whichever is less and adherence to depth of sand mining as prescribed in the Sustainable Sand Mining Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining (EMGSM), 2020 issued by the MoEF&CC.

Date of SEIAA 2 :10/07/2026

Deliberations of SEIAA 2 :

After detailed deliberation, the authority decided to seek clarification / document from the PP on the following: -

1. The PP has to submit valid approved mining plan as the earlier plan submitted has already been expired on 21.01.2026.

3.17.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority approved the EC for extraction of sand limited to 3000 cum with average depth of 1.5 meter for one year valid from the date of issue of this letter and the method of mining shall be as per the approved Mining Plan with the following additional condition as given below.

- The PP shall maintain 50 meter as no mining zone from the embankment. The Mining Officer shall ensure that no sand shall be extracted from the river embankment within

50 meters distance during mining operation.

- Further extension of EC will be considered after submission of ARSS report prepared through ORSAC empanel agency or NABET Consultant as per the prescribed guidelines and the conclusion of ARSS report shall be duly authenticated with sign and date by the Mining Officer. The PP is also required to submit the copy of lease agreement.

· The PP shall upload six monthly compliance report in the dedicated module in the Parivesh Portal.

3.17.4. Recommendation of SEIAA

Approved

3.19.2. Deliberations by the committee in previous meetings

Date of SEAC 1 :13/07/2026

Deliberations of SEAC 1 :

In view of the above, SEAC recommends for grant of Environmental Clearance (EC) for the medium Irrigation Project across Rushikulya river and Adangi Nalla, considering the proposal as category B2, as per MoEF & CC, Govt. of India notification vide S.O.3977(E), dated 14.08.2018. Grant of Environmental Clearance to the project may be considered valid for 13 years with stipulated conditions as per **Annexure- A** in addition to the following specific conditions.

- (i) All Statutory clearances required for the project be obtained prior to the commencement of construction work.
- (ii) The Environmental Management Plan (EMP) shall be strictly adhered to as submitted in the EMP report. The budgetary provisions for implementation of EMP, shall be fully utilized and not to be diverted to any other purpose. In case of revision of the project cost or due to price level change, the cost of EMP shall also be updated proportionately.
- (iii) All Seismic Parameters study needs to be conducted for the project.
- (iv) Lowest elevation level of all 5 villages needs to be mentioned in the project.
- (v) Undertaking by Project Proponent that there will be no disturbance in road connectivity for all 5 no. of villages to other areas.
- (vi) Apart from river gates, River sluices are to be provided for downstream requirement and environment flow.
- (vii) The riparian rights of downstream users should not be affected.
- (viii) Fish pass to be provided.
- (ix) Before start of construction of Dam, Dam Break analysis to be conducted.
- (x) Proper Emergency action plan to be made.
- (xi) Revised Risk Management plan with correct data to be made.
- (xii) After 5 years of the commissioning of the project, a study shall be undertaken regarding impact of the project on the environment. The study shall be undertaken by an independent agency.
- (xiii) Wildlife Conservation plan for Schedule I species shall be implemented as approved by the CWLW.
- (xiv) Any other clearances / permission from any other organization / department including NMCG, as applicable to the proposed project shall be obtained.
- (xv) Solid waste generated, especially plastic waste, etc. should not be disposed of as landfill material. It should be treated with scientific approach and recycled. Use of single-used plastics may be discouraged.
- (xvi) Land acquired for the project shall be suitably compensated in accordance with the law of the land with the prevailing guidelines. Private land shall be acquired as per provisions of Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013.
- (xvii) Necessary permission to be obtained for quarrying construction materials, if any required, for the project as per the EIA Notification, 2006 and as amended thereof.
- (xviii) The clearance is valid for period of 13 years from the date of issue of this letter for commissioning of the project.
- (xix) The PP shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report.

All compliances submitted/ committed by PP(s) shall be strictly adhered to them in addition to all the conditions/ specific conditions of EC.

3.19.3. Deliberations by the SEIAA in current meetings

After detailed deliberation, the authority decided to seek clarification / document from the PP on

the following: -

1. Scrutiny fee of Rs. 5.00 Lakhs to be deposited.
2. The PP has to submit the Stage-I FC from MOEF&CC, Govt. of India under Forest (Conservation) Act, 1980 as per OM dated 09.11.2011 of MOEF & CC.

3.19.4. Recommendation of SEIAA
